Question1:

Question2: There should be minimum standards for welfare of the farm animals...this will also impact on quality...there should be no crates for pregnant sows or veal or battery cages for hens.

Question3: No financial assistance should be given to large companies that treat the animals inhumanely such as intensive confinement, mutilation, and aversive handling.

Question4: Wlminating factory farming will help the environment. We must keep an eye on the future, or we will have none.
