Question4: I have seen since the application of the CRP program a huge increase in wildlife in the state of ND. I have seen an increase in hunting, and because of this an increase in business in rural areas. The CRP program has made a positive impact on our economy. The CRP program has brought people in from other states who are enjoying the abundance of wildlife in our state. The CRP program has increased our quality of water, air, and life as well. It could possibly help prevent flooding too.
