Question1: The Gov should subsidize the use of animal litter for grain crops to reduce runoff into streams benefitting both meat and grain producers as well as population in general

Question2:

Question3:

Question4:

Question5: Farmers are fine managers and innovators. Increasing profits will permit hiring much needed labor thereby permitting farmer to develop local business.

Question6: First, on farm blending of biodiesel should be subsidized. Secondly, farmers should be given tax incentives to initiate attempts to diversify into production of other fruit and vegetables without loss of base acreage.
