Question1: Stop putting small family farms out of business with huge corporate operations.

Question2: Eliminate ALL factory farming of animals.

Question3:

Question4: Get rid of CAFOs; stop warehousing animals in egregiously filthy factory farms with their massive lagoons of manure and runoffs.

Question5: Get back to family farms, and get rid corporate factory farms that care only about profit and nothing about animal welfare and the environment.

Question6: Stop creating genetically modified farm animals. This is Frankenstein science, and the health hazards to humans will not be known for generations to come.
