Question1:

Question2:

Question3:

Question4: Please consider urban forests as an important component of the urban infrastructure.

Urban forests provide vital services to our urban citizens, such as: moderation of air temperatures, air purification, water purification, water conservation and reduction of storm water run off and soil conservation.

Local municipal budgets are struggling to provide for the needs of a sustainable urban forest.

Please do not discount their value to the well being of many U.S. citizens.
