Question1: I have recently purchased 400 acres for tree farming.

Allow depreciation of land used in farming. It's not any different than building a manufacturing plant. It's our business.

Question2: We should support the development of end use products.

Question3: utilize the tax code. currently you have to apply and there is a good old boy network that you have to navigate.

Question4: allow thr tree farmer to cut his wood without restriction but encorage the replanting and reforestation of the land. Provide incentive to landowners to keep the land in forest production. I know when I cut my trees it is very tempting to develop the lot, since it will be 60 years before the land has value again.

Question5:

Question6: support college and university study and programs.
