Question1: Family farms need to be encouraged and agri-business does NOT. There should be incentives for family farms to continue.

Question2:

Question3: Benefits need to be aimed at the small, family farm. Large argibusinesses do NOT need my tax dollars to compete.

Question4: Cleaner air and water should be THE priority--without them, farming will become extinct. If we can't be good stewards of the land, the land will cease to be usable.

Question5: Develop partnerships with LOCAL rural organizations, giving full voice to the small family farm.

Question6: Renewable energy and bioproducts need to be priorities.
