Question1: I don't you or anybody else in D.c. will LISTEN to the american farmer. I can't see how you have not gone to bat for the farmers in the south due to katrina and rita. I do know this if you and the guys in D.C. cut the farm programs you will put many farmers out. I think that there will have to be some sort of floor cut all the payments but have a price floor I think that the loan on cotton is 52 cents it would take a 2.5 bale cotton crop to break even when most avg 700-1000 in ms. I think that it needs to be a floor of 80 cents on cotton and 7.50 bu on beans , 3.00 on corn rice3.50 wheat 3.50 cut all the payments but you have to have a floor we can't continue to grow these crops at the prices that we get at this time and not lose we get shafted all the time and it s not right also I don't see how you can cut into the program I have equipment financed based on the payment through 2007 lots of farmys do and it makes me sick that y'all are cuting prices on things I think of it as you haveing a house mortgage and its for 30yrs and 2yrs before its up you have to pay it all 2 yrs before it stinks you need to get on the wagon and help us out we are hurting in the farm world now you need to do something about and help.
