City: Fort walton beach

State: Florida

zipcode: 32547

Question1: I do not know enough about land price to determine what should be revised in this area, if anything.

I do, however, believe that the most important aspect regarding farm land ensuring that the operations limit the amount of contamination to the soil. More energy should be spent in resolving soil contamination issues.

Question2: The past decades have shown that more and more people are adopting a vegetarian or vegan diet. Our focus should be less on meat products and more on vegetarian products.

Question3: More money should be given for those farms that strive to find answers to soil contamination problems.

Question4: By giving monetary incentives to those farms that obtain solar or wind power, or incentives to those farms that take precautions to limit the amount of soil damage.

Question5:

Question6: Promote a better understanding of the environmental challenges that face the industry. Promote a Vegetarian or vegan diet.
