Question1: Allow some funding for new and next generation farmers

Question2: Favor small US farmers when offering financial help

Question3: Again support programs which favor small rural farmers, Non timber forest products harvesters etc.

Question4: Support Small land owners of timber lands and support programs which focus on non timber forest products, support forest workers by requiring prevailing wages be paid to anyone who has farm bill money to pay for work in their forest.

Question5: Invest in people who harvest non timber forest products sustainably. Invest in small forest land owners and the restoration workers who work on the forested lands.

Question6: Continue to look at what has been effective or helpful in the last bill and continue to support new ways of addressing these issues.
