---

Dear USDA-NRCS:

Please find the attached Adobe Acrobat File (Farm BillQ4\_Response\_123005.pdf) which contains comments from the Ohio Environmental Protection Agency, Division of Surface Water in response to the 2007 Farm Bill request for comment on farm policy considerations.

The response replies specifically to Question 4, which focuses on the achievement of conservation and environmental goals and relates most directly to the mission of Ohio EPA's Division of Surface Water.

We appreciate the opportunity to comment on this very important policy issue.

Thanks!

~rick
