SECTION C--STATEMENT OF WORK

Background/Objectives:

The U.S. Department of Agriculture (USDA), Food Safety and Inspection Service (FSIS) ensures that meat, poultry, and egg products distributed in interstate commerce for human consumption are safe, wholesome, and accurately labeled. This responsibility is mandated under the Federal Meat Inspection Act, the Poultry Products Inspection Act, and the Egg Products Inspection Act.

The Food Safety Education (FSE) office within FSIS ensures that consumers have the latest science-based information about the risks associated with mishandling food and to enhance the dissemination of food safety information to consumers nationwide. A Food Safety Education (FSE) Outreach Vehicle may travel to all 15 FSIS districts throughout the year. The FSE vehicle will appear at State and local county fairs, media outlets—TV, radio, local cable TV, print—schools, cooperative extension services, libraries, parades, conventions as an exhibit booth, and at USDA/FSIS events in conjunction with visits and presentations by USDA officials. The FSE vehicle can more effectively reach consumers, including under-served populations, by presenting food safety information (in English/Spanish) through targeted saturation of all areas of the U.S. This effort also presents an excellent opportunity to work with existing partnerships, while creating new partnerships to foster increased collaboration in food security and food safety education outreach to localities on a national basis. The FSE vehicle will also serve as a front-line consumer education system by informing and educating consumers on what USDA is doing to protect the food supply and asking consumers to do their part in Homeland Security.

The FSE vehicle will be scheduled and tracked from FSIS Headquarters in Beltsville, Maryland. The Contracting Officer's Technical Representative (COTR) and/or Project Officer (PO) will generate outreach opportunities in the visited areas. The vehicle will be stocked with FSES publications, a grill, food thermometers, various visuals and related hardware used to demonstrate food safety practices and principles, and a Thermy™ and Fight BAC! ® costumes to be used at food safety events nationwide.

Scope of Work:

The USDA, FSIS, has a requirement for a driver to drive the USDA, FSIS, FSE recreational-style motor vehicle to various food safety education events/meetings in the hurricane disaster areas of recovery.

Contractor/Driver Responsibilities shall be:

1. The driver(s) will be responsible for driving the vehicle full-time for the base period throughout the continental U.S.

8. Driver(s) shall maintain time sheets and submit with invoice.
9. Driver must provide for the routine maintenance/upkeep of the vehicle's facilities (emptying sewage tanks, filling water tanks, etc.) The driver must keep a record of any expenses incurred and submit receipts with invoice.
10. Driver(s) must keep the interior and exterior of the vehicle in good condition to include cleaning the interior and washing the exterior. Position involves irregular work hours (up to 14 hours per day), depending upon event requirements, and will include weekends and evenings.
15. The contractor must provide the driver(s) lodging, meals and incidental expenses. The interior of the vehicle will only be used as office space (for meetings and press events) and for the storage of food safety education supplies and equipment.
