# Introduction

The Grain Inspection, Packers and Stockyards Administration (GIPSA) compiled the following elevator list based on information from export grain companies. Should questions arise about a particular grain facility's operation (e.g., commodity types, handling systems, logistics, etc.), please contact the appropriate export company. Persons who have questions about official inspection and weighing requirements should contact the appropriate GIPSA or Delegated State office.

GIPSA has listed each facility by field office, elevator name and appropriate inspection and weighing service provider. Additionally, the directory includes Canadian Grain Facilities along the St. Lawrence River system, although the United States Grain Standards Act does not define these facilities as export elevators. However, the Canadian Grain Commission provides official inspection and weighing services under a cooperative agreement with GIPSA for U.S. grain transshipped through Canadian ports.

Please contact Duane Putnam at (202) 720-8536 or via email ([DuaneA.Putnam@usda.gov](mailto:DuaneA.Putnam@usda.gov)) with questions concerning the directory.
