Federal Grain Inspection Service

# FGIS Program Handbook

---

## FOREWORD

The Pea and Lentil Inspection Handbook sets forth the policies and procedures for sampling, inspecting, and certificating whole dry peas, split peas, and lentils in accordance with the regulations under the Agricultural Marketing Act of 1946. These regulations establish the basic guidelines for inspecting peas and lentils and authorize the issuance of such additional guidelines as may be necessary for the interpretation and application of the United States Standards for Whole Dry Peas, Split Peas, and Lentils. Direct quotations from the United States Standards are shown in this handbook in italics.

The information contained in this handbook is applicable to official pea and lentil inspection services performed by the Federal Grain Inspection Service (FGIS), a program under the Grain Inspection, Packers and Stockyards Administration (GIPSA), and designated state cooperators. Persons interested in obtaining official services may call or write any FGIS field office or cooperator.

Trade names are used solely to provide specific information. The mention of trade names does not constitute a guarantee or warranty of the product by the U.S. Department of Agriculture or an endorsement by the Department over other products not mentioned.
