

Pet Travel

Dog #1: California? That's a long flight.

Dog #2: Yeah, but I'm not worried. I've got a direct flight, early in the day, so I won't have to change planes – I'll beat the heat. I'm in a sturdy, well ventilated kennel, with proper USDA markings. Oh, and I put my humans on the same flight – coach of course.

Dog #1: That's one smart dog.

Announcer: Fly smart – think ahead when travelling with your pet.
