

U.S. Food Waste Challenge

Reduce, Recover, Recycle

Organization(s):

Crystal Creamery

City, State: Modesto, California

Website: crystalcreamery.com

What are the reduction, recovery or recycling activities?

Crystal Creamery has partnered with local food banks for donation of products that are within code date. For dairy products that are unsaleable and not able to be donated for feeding hungry people, Crystal Creamery has partnered with a hog farmer who picks up from our facility on a daily basis in order to use that product as animal feed. Crystal Creamery also sends the whey by-product as animal feed to our Foster Family owned farms.
