

## **Phillip G. Pardey**

Philip G. Pardey is Professor of Science and Technology Policy in the Department of Applied Economics at the University of Minnesota. He is also the Director of Global Research Strategy for the College of Food Agricultural and Natural Resource Sciences and the Minnesota Agricultural Experiment Station and directs the University's International Science and Technology Practice and Policy (InSTePP) center. Previously he was a senior research fellow at the International Food Policy Research Institute, Washington D.C., and prior to 1994 at the International Service for National Agricultural Research in The Hague, Netherlands.

He is a Fellow of the American Agricultural Economics Association, Distinguished Fellow and Past President of the Australian Agricultural and Resource Economics Society, Distinguished Life Member of the International Association of Agricultural Economists, and winner of the Siehl Prize for Excellence in Agriculture. His research deals with productivity measurement and assessment, the finance and conduct of R&D globally, methods for assessing the economic impacts of research, and the economic and policy (especially intellectual property) aspects of genetic resources and the biosciences. Pardey is author of more than 330 books, articles, and papers, a listing of which is at [www.instepp.umn.edu/about-us/people/philip-pardey](http://www.instepp.umn.edu/about-us/people/philip-pardey)
