

# Australia: Cattle

- Yellow numbers are percentages, representing the average annual contribution of each state to the total national inventory. States not numbered contribute less than 1% to the national total.
- Major livestock areas combined account for approximately 75% of the total national inventory annually.
- Major and minor livestock areas combined account for approximately 99% of the total national inventory annually.

*Source: Major and minor agricultural areas and state percentages are derived from 2010-11 Agricultural Census data, obtained from the Australian Bureau of Statistics (ABS), and data obtained from the Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES).*
