Sysco’s Seafood Strategy

Size and Scale

• One of the largest seafood distributors
• Mix of frozen and fresh, imported and domestic
• Traditional broadline and specialty

Customer Options

• Breadth of options for all foodservice operators
• Options at every price point, enabled by our Sysco Brand family

Sustainability

Ongoing partnership with World Wildlife Fund since 2009, with commitments on:
• Improving Sourcing
• Advancing Traceability
• Protecting Endangered Species
Aquaculture’s Role in the Sysco Portfolio

USA aquaculture less than 6% of Sysco’s seafood business… but growing

Aquaculture is an important complement to sustainably wild-caught seafood to ensure we have access for years to come

COVID underscored the need to make our supply chain more resilient

Sysco focuses on safe, reliable, sustainable sources for the food to our tables
Over 40K studies on health benefits of seafood & omega-3s EPA + DHA show Seafood supports brain health, heart health, and overall wellness.

A third of the brain’s key functional units are made up of omega-3 fatty acids found in seafood.

Moms to be who ate seafood had babies with higher IQ and have a 66% reduction in early preterm births.

Eating two servings of fatty fish a week reduces the risk of dying from heart disease by 30-50%.

People who regularly eat fish are 20% less likely than their peers to have depression.
