

Mark Tomer

Dr. Mark Tomer is a Research Soil Scientist at the USDA/ARS National Laboratory for Agriculture and the Environment in Ames, Iowa. Dr. Tomer has conducted watershed assessment studies under USDA's Conservation Effects Assessment Project (CEAP), a project focused on determining effects of agricultural conservation practices on water quality in fields and in watersheds. Dr Tomer has also led the development of the Agricultural Conservation Planning Framework, which provides geographic databases and software to support agricultural conservation planning in the Midwest.
