

Biography for Nick Guilette

Nick Guilette graduated from UW-Stevens Point with a Bachelor of Science in General Resource Management and a minor in Soil Science. He has been an agronomist for several companies in northeast Wisconsin where he has gained valuable experience and earned his Certified Crop Advisor certification. He currently works for Ebert Enterprises, LLC as a Conservation Coordinator, assisting the farm with their nutrient planning and soil conservation practices. His brother, father, and he own a custom combining business and run 300 acres of land together as a cash crop

operation where corn, soybeans, and winter wheat are grown. Over time, the farm has been increasing the amount of no till planting and cover crops planted on the operation.

Nick is passionate about agriculture and conservation. He serves as a board member on Peninsula Pride Farms, a farmer led watershed group in Northeast Wisconsin. He also serves as co-director on the Door-Kewaunee Demonstration Farms Network, a partnership between the NRCS, WI Department of Agriculture, Trade and Consumer Protection and Peninsula Pride Farms where conservation practices are highlighted on the participating farms for others to see. Recently Nick was awarded the inaugural Certified Crop Advisor Conservationist of the Year.
