

Dr. Zachariah Rutledge is an assistant professor in the Department of Agricultural, Food, and Resource Economics at Michigan State University. He received training as an applied economist at the University of California, Davis where he earned a Ph.D. in Agricultural and Resource Economics in 2020. His research appears in peer-reviewed journals such as the American Journal of Agricultural Economics, Food Policy, and the IZA Journal of Development and Migration. Dr. Rutledge's research focuses primarily on issues related to domestic agricultural labor markets. His current research efforts aim to document the prevalence of farm labor shortages and investigate market and policy-based solutions to the problem. His research includes ongoing survey work with industry groups to gather information about the ways in which farmers are dealing with limited access to labor. You can learn more about Dr. Rutledge's research by visiting his personal website at <https://www.zachrutledge.com>.
