

Sergio Alvarez

Sergio Alvarez is an applied economist with broad research interests in agriculture, natural resources, and the environment. He has served as Chief Economist for the Florida Department of Agriculture and Consumer Services since 2013, where he has conducted research on economic issues associated with agricultural pests, biological control, identity theft, and hurricane Irma, among others. Sergio holds a B.A. degree in Environmental Science, and M.S. and Ph.D. degrees in Food and Resource Economics, all from the University of Florida.
