2010 Census AI/AN in the U.S. Wall Map
Multiple Tribal Stakeholders Within Every Tribe

- Elected Tribal Leaders
- Tribal Historic Preservation Office
- Tribal IT Department
- Tribal Economic Development Staff
- Tribal Utility Staff
- Other Tribal Programs (Natural Resources, Land Management, etc.)
- Tribal Members

Don’t assume a signed letter or communication with one person from a Tribe means that all the other tribal parties are fully informed of your project or supportive of it.
Regardless of whether or not you are proposing to cross tribal lands, as soon as you accept funds from Rural Development you must comply with the National Environmental Policy Act (NEPA) and RD’s implementing regulations prior to drawing down funds and prior to construction.

- Includes compliance with Section 106 of the National Historic Preservation Act and requirement for RD to consult with Tribes
- BIA Rights of Way Regulations when crossing tribal lands
- Other potential challenges
“The National Historic Preservation Act (NHPA) requires federal agencies, in carrying out the Section 106 process, to consult with Indian tribes and Native Hawaiian organizations (NHOs) when historic properties of religious and cultural significance to them may be affected by a project that they carry out, license, or financially assist (also referred to as an undertaking). The ACHP’s regulations implementing Section 106, 36 C.F.R. Part 800, in turn, require federal agencies to consult with Indian tribes and NHOs throughout the review process for such projects. This requirement applies regardless of the location of the historic property.”

From Early Coordination With Indian Tribes During Pre-application Processes – A Handbook. Published by the ACHP
Recommendations

- Utilize RD staff expertise
- Understand the land tenure of proposed service territory
- Start building relationship of mutual trust and respect as soon as possible
- Approach Tribes with respect as partners, custodians of a unique cultural heritage, landowners and sovereign nations
- Be prepared to work with BIA and tribal land management staff if your project will cross tribal lands
