ReConnect Overview

Rural Utilities Service, U.S. Department of Agriculture Rural Development

Mission: USDA's Rural Utilities Service (RUS) provides much-needed infrastructure or infrastructure improvements to rural communities. These include water and waste treatment, electric power and telecommunications services. All of these services help to expand economic opportunities and improve the quality of life for rural residents.

RUS ReConnect Program furnishes loans and grants to provide funds for the costs of construction, improvement, or acquisition of facilities and equipment needed to provide broadband service in eligible rural areas.

ReConnect Program Overview

- **Mission:** To expand broadband service to rural areas without sufficient access to broadband, defined as 10 megabits per second (Mbps) downstream and 1Mbps upstream.
- **Funding categories:**
 - 100% Loan
 - 50% Grant/ 50% Grant
 - 100% Grant
- **Eligible entities:**
 - Non-profit entities;
 - For-profit corporations;
 - Limited liability companies;
 - Cooperative or mutual organizations;
 - States, local governments, or any agency, subdivision, instrumentality, or political subdivision thereof;
 - A territory or possession of the United States; and
 - An Indian tribe

Working with USDA Regional Resources

Field Accountants and General Field
Representatives (GFRs)

Regional Resources

- A variety of resources are available to provide technical assistance with your project and help you meet the requirements
- Specifically, General Field Representatives (GFRs) and Field Accountants will work with you throughout the process
- Each state has assigned Field Accountants and a GFR:
 - You can find the contact information for your state's resources on the ReConnect website:
 - GFRs: <https://rd.usda.gov/contact-us/telecom-gfr>
 - Accountants: <https://rd.usda.gov/contact-us/field-accountants>

Roles of Field Accountants

- Provide technical accounting assistance when needed
- Monitor for timely submission and review the annual CPA audits of awardees
- Perform Loan/Grant Accounting Reviews, that include the following procedures:
 - To determine whether construction fund advances and disbursements were made in compliance with RUS policy in amounts and for purposes approved by RUS
 - To evaluate the effectiveness of the borrower's internal accounting controls over construction fund receipts, construction fund disbursements, and plant accounting procedures
 - To evaluate the accuracy and validity of the financing-related documents (e.g., work order inventories, contracts, etc.,) submitted to RUS to encumber loan funds
 - To determine whether a borrower's plant accounting records and procedures are in compliance with RUS requirements and the applicable uniform system of accounts

When Awardees May Expect to Hear from a Field Accountant

- After a portion of the project is completed and financed through the ReConnect Program, Field Accountants will reach out to Awardees to schedule a Loan and Grant Fund Accounting Review
- Upon completion of the entire award, Field Accountants will perform a final Loan/Grant Accounting Review

Roles of General Field Representatives: Project Monitoring

Project Monitoring:

- Maintains general oversight of awardee's financial, management, engineering, construction, technical operations, and maintenance activities
- Regular contacts (by visit or other means) of all awardees requires GFR to travel across their service area on a regular basis
- Assures that awardees are aware of deadlines for submission of required reporting, including yearly and/or quarterly reports and annual audits
- Inspection of construction/installation to insure proper use of federal funds within the scope of the project to benefit rural America
- Verifies compliance to all EO/CR policies and responsibilities of awardee

Roles of General Field Representatives: Project Finalization

Project Finalizations:

- Insures proper completion of contracts and close-out documentation with National Office
- Assists customers with RUS procedures to insure appropriate documentation is retained for auditing purposes.

Roles of General Field Representatives: National Office Communications and Coordination

National Office Communication and Coordination:

The GFR is the front-line RUS presence for customers and project communication to National and State Offices:

- Identifies projects for purposes of success stories, working w/ state office personnel as required
- Coordinates with PICs / Broadband Coordinators regarding program information, changes, funding opportunities, etc.
- Relationship with National Office
- Relationship with State Office

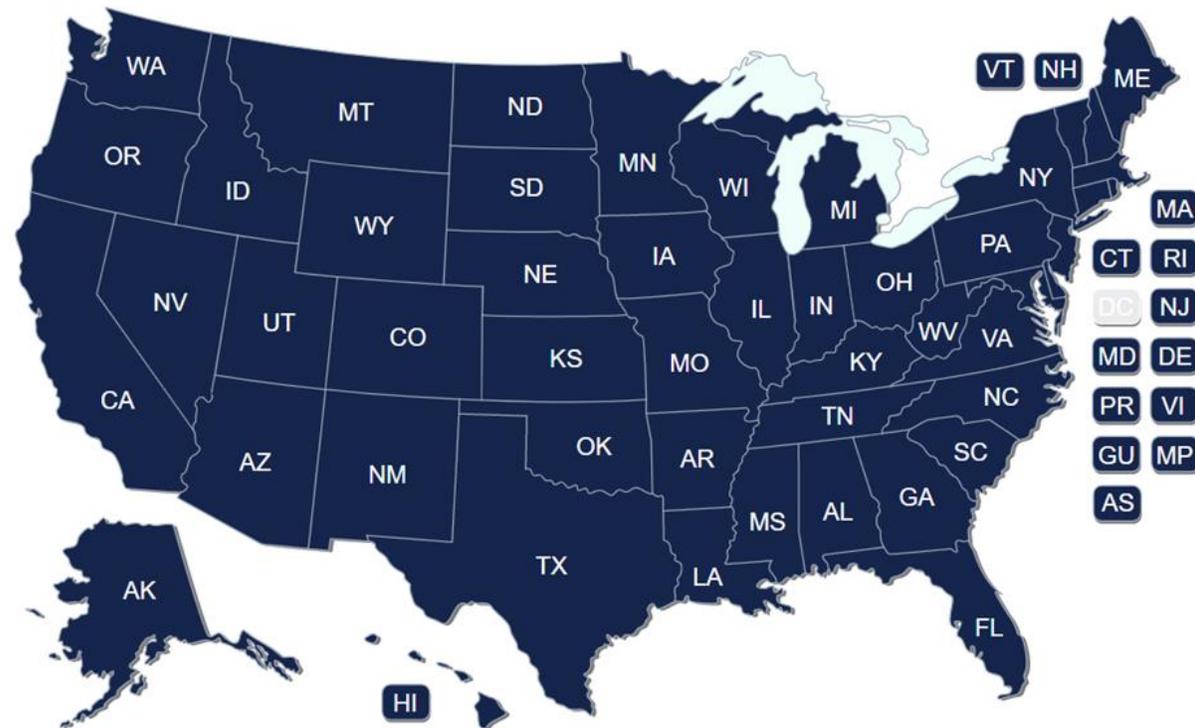

When Awardees May Expect to Hear from a General Field Representative

- GFRs meet regularly with Awardees and other program borrowers on site
- They serve as the local information conduit for the awardees and headquarters staff
- The Awardee, the Awardee's engineer, the contractor, and GFR will meet for a final inspection after construction is complete and acceptance tests made

State Offices

- State Directors and State Staff are available as a resource to awardees
- <https://www.rd.usda.gov/contact-us/state-offices>
