

## **United States Department of Agriculture (USDA) FY 2022 Service Contract Inventory Planned Analysis**

USDA will evaluate the 6 Product Service Codes listed in the chart below. The analysis will evaluate the following: B599 Special Studies/Analysis-Cost Benefits, D302 IT and Telecommunications System Development, D307 IT and Telecommunications Strategy and Architecture, D399 IT and Telecommunications, R408 Support Professional Program Management Support and R499 Support-Professional Other.

Product Services Codes D302, D307 and R408 are identified by Office of Management and Budget for heightened management consideration, based on concerns of increased risk of losing control of mission and operations, as identified through a review of reports issued at the Government Accountability Office, the Commission on Wartime Contracting, agency Inspector General, Congressional Committees, the Acquisition Law Advisory Panel and OMB analysis. Product Services Codes B599, D399 and R499 are identified by USDA based on capital expenditure totals and the correlation to contractor dependency.

USDA will evaluate these Product Service Codes to determine whether the agency should consider an increased risk of losing control of mission and operations as identified through USDA internal analysis.

<b>PSC</b>	<b>Function</b>
B599	Special Studies/Analysis-Cost Benefit
D302	IT and Telecom-Systems Development
D307	IT and Telecom-IT Strategy and Architecture
D399	IT and Telecom-Other IT and Telecommunications
R408	Support-Professional: Program Management/Support
R499	Support-Professional: Other
