The U.S. Department of Agriculture is investing up to $2.8 billion in 70 selected projects under the first funding pool of Partnerships for Climate-Smart Commodities.

**Projects by Commodity**

- **15** Farm projects
- **13** Beef & Livestock projects
- **9** Dairy projects
- **8** Timber & Forests projects
- **7** Cotton & Peanuts projects
- **4** Hemp projects
- **4** Energy projects
- **4** Sorghum, Wheat, & Grains projects
- **4** Specialty Crops projects

**Proposal Investments**

- 70 selected projects include plans to match on average over 50% of the federal investment with nonfederal funds.

**Projects by Award Size**

- 25 projects: $25M-45M
- 22 projects: $5M-20M
- 14 projects: $70M-95M
- 09 projects: $50M-65M

50+ universities, including multiple minority-serving institutions, engaged and helping advance projects.

50,000+ farms reached, encompassing acres of working land engaged in climate-smart production practices.

Hundreds of expanded markets and revenue streams for producers and commodities across agriculture ranging from traditional corn to specialty crops.

More than 50 million metric tons of carbon dioxide equivalent sequestered over the lives of the projects. This is equivalent to removing more than 10 million gasoline-powered passenger vehicles from the road for one year.

*USDA will work with the applicants to finalize the scope and funding levels.
USDA is an equal opportunity provider, employer, and lender.
