

United States Department of Agriculture

USDA/1890 National Scholars Program 2020 High School Application

INTRODUCTION

Thank you for your interest in the U.S. Department of Agriculture's (USDA's) 1890 National Scholars Program. The USDA/1890 National Scholars Program was established in 1992 as part of the partnership between the U.S. Department of Agriculture and the 1890 Land-Grant Universities.

The goal of the USDA/1890 National Scholars Program is to increase the number of students studying agriculture, food sciences, natural resource sciences, and other related disciplines. The program is open to high school seniors, college freshmen and sophomores who exhibit exemplary leadership traits and demonstrated community service. The Scholarship is highly competitive and provides for full tuition payment, among other benefits, for up to 4-years to selected students enrolled or accepted for enrollment at an 1890 Land-Grant University. The 1890 National Scholars Program partners with USDA agencies to provide scholars with professional and educational opportunities. A sponsoring USDA Agency Coordinator will be assigned to the scholar. The USDA Agency Coordinator will be the primary point of contact for the scholar. The USDA Sponsoring Agency will work closely with scholars to provide ongoing support and ensure the scholar is on track with degree requirements.

The USDA/1890 National Scholars Program is implemented under the USDA Fellows Experience Program (FEP). Successful applicants will receive a temporary appointment to the USDA, not to exceed 4 years. Upon successful completion of the degree requirements and the end of the agreement period, the scholar is eligible for conversion to a career conditional appointment in service to USDA without further competition.

The USDA/1890 National Scholar is required to:

- ✓ Reimburse the USDA Sponsoring Agency for costs of education (excluding the employee's pay and allowances) incurred by the USDA sponsoring agency, if the scholar voluntarily separates from the service of the USDA sponsoring agency before the end of the period for which the scholar has agreed to continue in the service of the USDA.
- ✓ Consult with and obtain the approval of the Sponsoring USDA Agency prior to making any changes to their academic program. Unapproved changes may affect the Scholar's continued participation in the program, such as scholar's participation in study abroad programs, third party internships and leave of absence. The Scholar is expected to meet with the Agency Coordinator to go over degree classes and ongoing academic status.
- ✓ The Scholar must coordinate summer work experience through their work site manager.
- ✓ The Scholar must report to work site and have a record of their individual development plan.

Again, thank you for your interest in the USDA/1890 National Scholars Program and best wishes in your pursuit of academic excellence!

USDA/1890 NATIONAL SCHOLARS PROGRAM
