

## Put American Farmers First

- Support farmers, ranchers, and producers for generations to come
- Improve access to and develop new technology for all of production agriculture
- Make American agriculture the most competitive in the world via new markets, trade promotion, and improved trade data analysis

1

## Prioritize Rural Communities and Economies

- Promote private sector engagement and innovation that stimulates rural American economies
- Reduce the cost of living for Americans
- Unleash American energy and natural resource opportunities
- Ensure aggressive response and proactive treatments for wildland fire management

2

## Optimize USDA's Customer Service and Protect the Taxpayers

- Promote and enhance efficiencies and innovation in programmatic and operational activities to reduce waste, fraud, and abuse
- Strengthen USDA's focus on service delivery to customers using Artificial Intelligence (AI) and advanced technology

6

## Protect and Expand the Resilience of American Agriculture

- Secure and protect American farmland
- Enhance research security
- Safeguard American agriculture from animal and plant pests and diseases

3

**USDA**  
U.S. DEPARTMENT OF AGRICULTURE

## Protect America's Agricultural Heritage

- Protect farmers, ranchers, and producers from internal bureaucracy
- Create a regulatory environment friendly to agricultural production

5

## Make America Healthy Again

- Address the chronic disease epidemic through access to healthy, nutritious, and real food
- Maintain and protect a safe and affordable food system
