USDA MISSION, VISION, AND CORE VALUES

Mission
To serve all Americans by providing effective, innovative, science-based public policy leadership in agriculture, food and nutrition, natural resources protection and management, rural development, and related issues with a commitment to deliverable equitable and climate-smart opportunities that inspire and help America thrive.

Vision
An equitable and climate-smart food and agriculture economy that protects and improves the health, nutrition, and quality of life of all Americans; yields healthy land, forests, and clean water; helps rural Americans thrive; and feeds the world.

Core Values
Respect and Dignity | Equity and Inclusion | Trust and Integrity | Service and Results | Science Leadership
USDA IT
MISSION, VISION, AND CORE VALUES

Mission
Enable the USDA mission through innovative, secure, and cost-effective IT solutions and services.

Vision
Implement a customer first model leveraging technologies that provide for simple, seamless, and secure digital services and offers a world class experience for the American public.

Core Values
• Customer-First Experience: Design and deliver IT solutions around a Digital Enterprise Model that puts the needs of customers at the forefront of innovation, security, and modernization.
• Innovative: Foster innovation and adoption of new technologies.
• Quality and Availability of Data and Information: Enhance the quality, availability, and delivery of data and information through curation and stewardship throughout the life cycle.
• Efficiency: Increase efficiency, transparency, and accountability of IT.
• Value: Provide business value to all users and stakeholders.
“USDA seeks to be the federal lead in customer-centered, data-driven service delivery that provides for simple, seamless, and secure digital services that offer a world-class experience for the American public. Our IT Workforce is critical to achieving this vision and I am excited about how our Hiring Strategy will help us bring in and develop great tech talent across the Department. Our people are our most valuable resource at USDA.”

Gary Washington
Chief Information Officer
U.S. Department of Agriculture
“People are at the center of everything that we do to deliver the best technology and service to the millions of people who look to USDA for support. There are so many incredible opportunities for tech talent to provide meaningful impact while leveraging and expanding their skillsets. I’m extremely excited for how our Hiring Strategy is designed to enhance our recruiting and hiring experiences across the Department while better communicating the brand and values of USDA to help attract the best and brightest tech talent to come work with us on so many incredible missions.”

Arianna Gallagher-Welcher
Executive Director, USDA Digital Service
U.S. Department of Agriculture

USDA Strategic Plan

USDA IT Strategic Plan

USDA Data Strategy

USDA IT Workforce Strategic Plan

USDA IT Workforce Hiring Strategy
STRATEGIC PRIORITY #1
Implement proactive measures to ensure an effective and agile recruiting and hiring process.

ACTION PLANS

Recurring Hiring Process Training
Expand upon existing recruitment and hiring training materials, so that key personnel understand the process, their role, and where to get help when needed.

Develop a Shared Recruitment and Hiring Resource Repository
Develop a tool to host resumes and position descriptions (PD) shared across Mission Areas.

Health Checks and Workforce Planning
Design and implement integrated forums and hiring process health checks to evaluate how the process is working and iterate on initiatives.

The Why
Increasing the accessibility and understanding of federal policies and guidelines creates a stronger Human Resources (HR) infrastructure by ensuring all stakeholders are aware of their roles and responsibilities within the recruitment and hiring process. With well informed stakeholder groups, HR operations can flourish, and IT Workforce leaders can achieve their employee talent goals.

EXPECTED OUTCOME
This priority aims to help ensure the recruitment and hiring process continues to be proactive, rather than reactive, through continuous feedback loops, recurring learning, and tools that promote increased collaboration and communication.
STRATEGIC PRIORITY #2
Enhance the recruitment and hiring experience through process changes and increased collaboration.

ACTIONS PLANS

<table>
<thead>
<tr>
<th>Expand IT Subject Matter Experts Involvement in Key Recruitment Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enable subject matter experts to contribute to the hiring process more effectively for key positions to improve HR efficiencies and supply USDA with as many qualified candidates as possible.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Enhance Communication Through Onboarding</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enact a “Buddy System” and or communication vehicles that provide transparency throughout the hiring process and ensure new hires feel engaged and welcome.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Update Interview Process</th>
</tr>
</thead>
<tbody>
<tr>
<td>Refresh the interview process to better target specific hard skills and core skills to create an agile workforce that’s well positioned to adapt to new technology and ways of working.</td>
</tr>
</tbody>
</table>

EXPECTED OUTCOME

Improved communication between HR representatives, Hiring Managers, and IT SMEs will promote alignment on IT workforce planning, allowing the organization to implement recruiting strategies that fill future needs. Similarly, creating a formalized communication channel between the HR representatives and the candidates throughout the hiring process aims to create a better experience for potential new hires.

The Why
One of the first interactions prospective USDA IT employees will have with the operation of the organization occurs during their hiring and onboarding. Leaders must ensure these process are polished and precise, providing Hiring Managers with the best fit applicant and illustrating the efficiency of the organization to the prospective employee.
STRATEGIC PRIORITY #3
Build a consistent and engaging brand to showcase USDA IT’s value and attract talented IT professionals.

The Why
A well-defined, easily understood, and broadly communicated brand may positively impact the success of an organization’s recruitment efforts. Potential employees should be able to easily gather information regarding the employer’s values and what they can expect from their employer in exchange for their time and effort.

ACTION PLANS

Expand Value Centric Approach
Expand use of pay and leave flexibilities and promote an Employee Value Proposition (EVP) to support recruitment activities.

Grow Strategic Recruiting Partnerships
Expand university and professional organization partnerships to engage with potential candidates through industry events, college job fairs, targeted conference participation and other creative events and activities.

Mature IT Workforce Branding and Explore New Engagement Opportunities
Build out the IT workforce brand and explore new recruitment forums and opportunities.

EXPECTED OUTCOME
Formalized organizational branding, expanded engagement with professional organizations and universities, and a value centric approach can help USDA IT recruit the most talented individuals for positions that deliver lasting value to USDA customers.
## Priority 1: Implement Proactive Measures to Ensure an Effective and Agile Recruiting and Hiring Process.

1. **Recurring Hiring Process Training**
2. **Develop a Shared Recruit and Hire Resource Repository**
3. **Health Checks and Workforce Planning**

## Priority 2: Enhance the Recruitment and Hiring Experience Through Process Changes and Increased Collaboration.

1. **Expand IT Subject Matter Expert Involvement in Key Recruitment Actions**
2. **Enhance Communication Through Onboarding**
3. **Update Interview Process**

## Priority 3: Build a Consistent and Engaging Brand to Showcase USDA IT’s Value and Attract Talented IT Professionals.

1. **Expand Value Centric Approach**
2. **Grow Strategic Recruiting Partnerships**
3. **Mature IT Workforce Branding and Explore New Promotion Opportunities**

Implementation
Maintenance and Tracking

Review and Maintenance

The IT Workforce Recruitment and Hiring Strategy is a living document, and as such this plan proposes a cyclical review process in which the priorities and associated action plans of the plan are reviewed to ensure applicability – supported by the review of the objectives and action plans underneath each priority. Maintenance meetings and or working sessions should take place both annually and when source documents change. If stakeholders do not meet in such a manner, it may become difficult to create a level of accountability to support the successful implementation of the priorities and action plans within this document.

Tracking Progress

The metrics outlined in the previous page, paired to the priorities and action plans, can be reviewed to assess the effectiveness of the strategies outlined in this document. In conjunction with IT Workforce key stakeholders, the IT Workforce Standing Committee will track the metrics and use centralized data analytics capabilities to provide real-time progress on IT Workforce hiring target metrics.
Contact Information

For more information or questions regarding this plan, please contact sm.ocio.cio.irmcooffice@usda.gov. Additional copies of this IT Workforce Recruitment and Hiring Strategy can be downloaded from USDA's Web site at: www.usda.gov.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.
