5.7 Additional Resources ............................................................................................................. 73
When President Abraham Lincoln founded the U.S. Department of Agriculture in 1862, he called it “The People's Department.” USDA staff across the country help promote a sustainable, safe, abundant, and nutritious food supply. USDA also supports rural communities by helping broaden economic opportunities. With the vast array of programs and services USDA manages, we are staying true to President Lincoln’s vision of serving all people.

The USDA Resource Guide for American Indians and Alaska Natives (AI/AN) was developed to provide tribal leaders and tribal citizens, 1994 Land-Grant Tribal Colleges and Universities, AI/AN businesses, and non-governmental organizations serving AI/AN communities with a tool for navigating USDA resources. The USDA programs and services available to members of AI/AN tribes are described in the following pages. This guide provides readers with a comprehensive summary of USDA Programs, separated into four categories:

1. Agriculture, Food Sovereignty, and Traditional Foods
2. Indian Country Economic Development
3. Conservation and Forestry
4. Research, Extension, and Outreach

The appendix provides additional information on the 17 agencies of USDA and highlights valuable information that relates to Indian Country. In this section you will find:

- USDA’s organization chart and a list of agencies, offices, and contact information.
- Information on USDA boards and committees and how to participate on them.
- Information on the Federal grant application process.
- Outreach and technical assistance for USDA programs.
- Information about the Federal and USDA policies that outline the Federal and Departmental work supporting AI/AN communities. These include departmental regulations, executive orders, and laws.

USDA is committed to serving tribal governments and AI/AN individuals by working to ensure that relevant programs and policies are efficient, easy to understand, accessible, and developed in consultation with the AI/AN constituents they impact. This guide is intended to encourage you to assess your community’s needs, collaborate with other community leaders, engage your local and state USDA representatives, and apply for and participate in USDA programs in order to support Indian Country.

Almost all USDA programs are accessible by tribes, tribal organizations, or tribal citizens. The resources described in this guide are accurate up to this guide’s publication date, but are subject to change. Throughout this guide we have identified how to get in touch with someone at USDA who can answer your questions and steer you in the right direction.

If you require any additional assistance please contact the USDA Office of Tribal Relations (OTR), and we will work with you to get the information you need. Located in the Office of the Secretary,
OTR was permanently established to facilitate your access to USDA and serves as a central point of information for both external stakeholders and USDA agencies. The office can be reached at (202) 205-2249. OTR regularly publishes a newsletter that includes program funding opportunities, jobs, and youth programs via email. To join the OTR listserv, please subscribe on the website at www.usda.gov/tribalrelations. We hope that this guide will serve as a valuable resource that you will return to often and that you will share with other leaders, organizations, and individuals in your community.

This Guide is available in .pdf online at https://www.usda.gov/tribalrelations

The USDA Office of Tribal Relations
Tribal Consultation

Since before its formation, the United States has recognized tribes as sovereign governments. A unique legal relationship exists between Federally recognized tribes and the Federal Government which evolved from this recognition of tribal sovereignty. This relationship is the basis of the “nation-to-nation” consultation requirement. The treaties in which many tribes ceded lands to the United States in exchange for protection and provisions for their tribal citizens were based on the premise of two sovereign governments interacting on an equal basis, just as foreign governments negotiate and sign treaties with the United States today. This relationship is incorporated in the Constitution and has been expressed through numerous treaties, statutes, executive directives, and court decisions as well as political, legal, moral, and ethical principles.

Tribal consultation, as described by Executive Order 13175, is the timely, meaningful, and substantive dialogue between Federal officials who have delegated authority to consult, and the official leadership of Federally recognized AI/AN tribes, or their designated representative(s), pertaining to policies that may have tribal implications.

OTR is the Tribal point of contact for Tribal requests for consultation.
USDA Programs

4.1 Agriculture, Food Sovereignty and Traditional Foods
As stewards of the land, Native producers are in a unique position to speak on local agricultural traditions and priorities. In this section, we provide you with an array of programs that support agricultural producers, promote food sovereignty, and recognize that Native traditional foods as important to the health and well-being of Native people.

4.1.1 AGRICULTURAL PRODUCTION

Beginning Farmers and Ranchers Loans
The Farm Service Agency makes and guarantees loans to beginning farmers and ranchers who are unable to obtain financing from commercial lenders. A beginning farmer or rancher is an individual or entity who (1) has not operated a farm or ranch for more than 10 years, (2) meets the loan eligibility requirements of the program to which they are applying, (3) substantially participates in the operation, and (4) for farm ownership loan purposes, does not own a farm greater than 30 percent of the median size farm in the county and meets training and experience requirements.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator

Direct Farm Operating Loans
FSA direct farm operating loans may be made to purchase items such as livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance, and other operating expenses. They can also be used to pay for minor improvements to buildings, costs associated with land and water development, family subsistence, and refinancing debts under certain conditions.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/farm-loan-programs/farm-operating-loans/index

Direct Farm Ownership Loans
FSA direct farm ownership loans may be made to purchase farmland, construct or repair buildings and other fixtures, and promote soil and water conservation.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/farm-loan-programs/farm-ownership-loans/index
Emergency Loans
Emergency Loans help farmers and ranchers who have suffered a loss caused by natural disasters that damaged their farming or ranching operation. Emergency loan funds may be used to restore or replace essential property, pay all or part of production costs associated with the disaster year, pay essential family living expenses, reorganize the farming operation, and refinance certain debts. The county or counties where the farm is located must be declared a disaster area by the President or designated by the Secretary of Agriculture. For production loss loans, applicants must demonstrate a 30-percent loss in a single farming enterprise. Applicants may receive loans up to 100 percent of production or physical losses. These loans are only available as direct loans from FSA with a maximum loan amount of $500,000.

EZ Guarantee Loans
Emergency Loans help farmers and ranchers who have suffered a loss caused by natural disasters EZ Guarantee Loans may be used to purchase farmland, construct or repair buildings and other fixtures, promote soil and water conservation, refinance debt from another creditor, purchase equipment, purchase livestock, and pay for other operating needs. FSA-guaranteed loans provide lenders (banks, Farm Credit System institutions, credit unions) with a guarantee of up to 95 percent of the loss of principal and interest on a loan. Farmers and ranchers apply to an agricultural lender, which then arranges for the guarantee. FSA developed the EZ Guarantee loan to better serve the unique financial needs of new, niche, family, underserved, or small farm operations by offering faster and simplified application and submission requirements. The FSA guarantee permits lenders to make agricultural credit available to farmers who do not meet the lender’s normal underwriting criteria. The EZ Guarantee is available for loan applications up to $100,000.

Farm Storage Facility Loans
Farm storage facility loans provide low-interest financing for producers to build or upgrade farm storage and handling facilities to store eligible commodities they produce, including cold storage facilities, bulk tanks, new or used handling and storage equipment (portable or permanently affixed), and storage and handling trucks. A producer may borrow up to $500,000 per loan with a minimum down payment of 15 percent, and loan terms are up to 12 years, depending on the amount of the loan. In addition, FSA provides a microloan option for producers who require financing of up to $50,000 with a low 5 percent down payment.
Guaranteed Farm Operating Loans
Guaranteed operating loans may be made to purchase items needed, such as livestock, farm equipment, feed, seed, fuel, farm chemicals, repairs, insurance, and other operating expenses. FSA-guaranteed loans provide lenders (banks, Farm Credit System institutions, credit unions) with a guarantee of up to 95 percent of the loss of principal and interest on a loan. Farmers and ranchers apply to an agricultural lender, which then arranges for the guarantee. The FSA guarantee permits lenders to make agricultural credit available to farmers who do not meet the lender’s normal underwriting criteria.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/farm-loan-programs/guaranteed-farm-loans/index

Guaranteed Farm Ownership Loans
Guaranteed farm ownership loans may be made to purchase farmland, construct or repair buildings and other fixtures, develop farmland to promote soil and water conservation, or to refinance debt. FSA-guaranteed loans provide lenders (banks, Farm Credit System institutions, credit unions) with a guarantee of up to 95 percent of the loss of principal and interest on a loan. Farmers and ranchers apply to an agricultural lender, which then arranges for the guarantee. The FSA guarantee permits lenders to make agricultural credit available to farmers who do not meet the lender’s normal underwriting criteria. A percentage of guaranteed loan funds is targeted to beginning farmers and ranchers and minority applicants.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://offices.sc.egov.usda.gov/locator/app
Website: https://www.fsa.usda.gov/programs-and-services/farm-loan-programs/guaranteed-farm-loans/index
Land Contract Guarantees
Guarantees are available for the owner of a farm who sells real estate through a land contract to a beginning or targeted underserved farmer. The guarantee provides an incentive to sell to individuals in these targeted groups as it reduces the financial risk to the seller in the event of default.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://offices.sc.egov.usda.gov/locator/app
Website: https://www.fsa.usda.gov/Internet/FSA_File/lc_guarantee_program.pdf

Microloans
Microloans are available for both direct farm ownership and direct operating loans and provide flexible access to credit for small farming operations, including specialty, niche, and local food producers. The Microloan Program includes a simplified loan application process and minimal paperwork. It provides additional flexibility in certain loan eligibility requirements, reduces documentation requirements, and streamlines financial planning for small operations. Producers can receive both a $50,000 Farm Ownership Microloan and a $50,000 Operating Microloan. Producers are no longer limited to a combined $50,000 for both microloans.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/farm-loan-programs/microloans/

Outreach and Assistance for Socially Disadvantaged and Veteran Farmers and Ranchers
The overall goal of this program is to assist socially disadvantaged and veteran farmers and ranchers in owning and operating farms and ranches while increasing their participation in agricultural programs and services provided by USDA. This program will assist eligible community-based and non-profit organizations, higher education institutions, and tribal entities in providing outreach and technical assistance to socially disadvantaged and veteran farmers and ranchers.

Agency: Office of Partnerships and Public Engagement (OPPE)
Eligibility: Tribal Organizations; Tribal Colleges & Universities
Contact: Kenya Nicholas, Program Director, kenya.nicholas@osec.usda.gov, (202) 720-6350
Website: https://www.outreach.usda.gov/sdfr/

Plant Pest and Disease Management and Disaster Prevention Program
The Animal and Plant Health Inspection Service (APHIS) is charged with implementing Plant Protection Act (PPA) Section 7721, the Plant Pest and Disease Management and Disaster Prevention Program, to prevent the introduction or spread of plant pests and diseases that threaten U.S. agriculture and the environment. Under PPA Section 7721, APHIS provides funding to strengthen the Nation’s infrastructure for pest detection and surveillance, identification, and threat mitigation, while working to safeguard the nursery production system.

Agency: Animal and Plant Health Inspection Service (APHIS)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Contact: APHIS Plant Protection and Quarantine, PPA-Projects@usda.gov
Website: https://www.aphis.usda.gov/aphis/ourfocus/planthealth/ppa-ppdmdpp
Reimbursement Transportation Cost Payment Program for Geographically Disadvantaged Farmers and Ranchers

The Reimbursement Transportation Cost Payment Program for Geographically Disadvantaged Farmers and Ranchers (RTCP) reimburses geographically disadvantaged producers with a portion of the cost to transport agricultural commodities or inputs used to produce an agricultural commodity.

- **Agency:** Farm Service Agency (FSA)
- **Eligibility:** Tribal Citizens; Tribal Organizations
- **Contact:** Local FSA County Office, https://www.farmers.gov/service-center-locator
- **Website:** https://www.fsa.usda.gov/programs-and-services/price-support/RTCP-Program/

Specialty Crop Block Grant Program (SCBGP)

The purpose of the SCBGP is to enhance the sale, consumption, access, diversity, food safety, conservation, and/or production of specialty crops. Specialty crops are defined as fruits, vegetables, tree nuts, dried fruits, horticulture, and nursery crops (including floriculture).

- **Agency:** Agricultural Marketing Service
- **Eligibility:** Tribes; Tribal Citizens; Tribal Organizations; Tribal Colleges & Universities. Interested applicants must apply through their State Department of Agriculture for funding.
- **Contact:** SCBGP Program Manager, john.miklozek@usda.gov, (202) 720-1403
- **Website:** https://www.ams.usda.gov/services/grants/scbgp

Youth Loans

FSA makes loans to individual rural youth, between the ages of 10 and 20 years, to establish and operate agriculture-related income-producing projects of modest size in connection with their participation in 4-H clubs, the Future Farmers of America, Tribal Youth Organizations and similar organizations. The project must be planned and operated with the help of the organization adviser, produce sufficient income to repay the loan, and provide the youth with practical business and educational experience. The maximum loan amount is $5,000, and the repayment term is 1 to 7 years. In certain cases, FSA may require a co-signer for a youth loan.

- **Agency:** Farm Service Agency (FSA)
- **Eligibility:** Tribal Citizens between 10 and 20 years old.
- **Key Dates:** Program signups vary. Loan applications are always available.
- **Contact:** Local FSA County Office, https://offices.sc.egov.usda.gov/locator/app
- **Website:** https://www.fsa.usda.gov/FSA/webapp?area=home&subject=paca&topic=you

4.1.2 ORGANIC AGRICULTURE CERTIFICATION

Two organic certification cost share programs are offered to assist certified organic operations in defraying the costs associated with organic certification.

Agricultural Management Assistance (AMA) and Organic Certification Cost Share Program (OCCSP)

The AMA Program is available to certified organic producers in 16 states designated by Congress. Organic operations may receive up to 75 percent of their certification costs paid; not to exceed $750 per certification scope. Payments are distributed to producers by eligible State agencies.

- **Agency:** Agricultural Marketing Service
- **Eligibility:** Organic producers in 16 states designated by Congress which include: Connecticut, Delaware, Hawaii, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Utah, Vermont, West Virginia, and Wyoming.
- **Contact:** Local FSA County Office, https://www.farmers.gov/service-center-locator
- **Website:** https://www.ams.usda.gov/services/grants/occsp
National Organic Certification Cost Share Program (NOCCSP)
The NOCCSP is available to organic producers and handlers. Organic operations may receive up to 75 percent of their certification costs paid; not to exceed $750 per certification scope. Payments are distributed to producers by eligible State agencies.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.ams.usda.gov/services/grants/occsp

4.1.3 AGRICULTURAL MARKETING & PROCESSING

Acer Access and Development Program (Acer)
The Acer Access and Development Program (Acer) offers grants to support the efforts of States, tribal governments, and research institutions to promote the domestic maple syrup industry. Supported activities include: promotion of research and education related to maple syrup production; promotion of natural resource sustainability in the maple syrup industry; market promotion for maple syrup and maple-sap products; encouragement of owners and operators of privately held land containing species of trees in the genus Acer to initiate or expand maple-sugaring activities on the land; or to voluntarily make the land available, including by lease or other means, for access by the public for maple-sugaring activities.

Eligibility: All applicants must be located within the 50 United States, the District of Columbia, American Samoa, Guam, the Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, or the U.S. Virgin Islands to be considered eligible. Entities that are eligible to apply include:

• States
• Tribal Governments
• Research Institutions

Contact: Martin Rosier (martin.rosier@usda.gov)

Sheep Production and Marketing Grant Program (SPMGP)
The Sheep Production and Marketing Grant Program (SPMGP) strengthens and enhances the production and marketing of sheep and sheep products in the United States including the improvement of infrastructure business, resource development and the development of innovative approaches to solve long-term needs.

Eligibility: In 2019, USDA selected the National Sheep Industry Improvement Center (NSIIC) to competitively award funds to public, private, or cooperative organizations; associations, including corporations not operated for profit; Federally recognized Indian Tribes; or public or quasi-public agencies that focus on the betterment of the U.S. sheep industry.

Agency: Agricultural Marketing Service (AMS)
Contact: Organizations or individuals interested in applying for funding or learning about funded projects should visit www.nsiic.org.
Website: www.ams.usda.gov/spmgp or www.nsiic.org
Website: www.ams.usda.gov/acer
Farmers Market Promotion Program (FMPP)
The purpose of the Farmers Market Promotion Program (FMPP) is to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets by developing, improving, expanding, and providing outreach, training, and technical assistance to, or assisting in the development, improvement, and expansion of, domestic farmers markets, roadside stands, community-supported agriculture programs, agritourism activities, and other direct producer-to-consumer market opportunities.
Agency: Agricultural Marketing Service (AMS)
Eligibility: All applicants under FMPP must be domestic entities owned, operated, and located within the 50 United States, the District of Columbia, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, or the U.S. Virgin Islands to be considered eligible. Entities that are eligible to apply include:
• Agricultural businesses
• Agricultural cooperatives
• Community Supported Agriculture (CSA) networks
• CSA associations
• Economic development corporations
• Local governments
• Nonprofit corporations
• Producer networks
• Producer associations
• Public benefit corporations
• Regional farmers’ market authorities
• Tribal governments
Contact: Dewell Paez-Delgado (dewell.paez-delgado@usda.gov)
Website: www.ams.usda.gov/fmpp

Federal State Marketing Improvement Program (FSMP)
The Federal-State Marketing Improvement Program (FSMIP) provides matching funds to State Departments of Agriculture, State agricultural experiment stations, and other appropriate State agencies to assist in exploring new market opportunities for U.S. food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.
Agency: Agricultural Marketing Service (AMS)
Eligibility: All applicants must be located within the 50 United States, the District of Columbia, American Samoa, Guam, the Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, or the U.S. Virgin Islands to be considered eligible. Tribal entities must be tribal colleges and universities (only Land-Grant institutions).
Contact: Martin Rosier (martin.rosier@usda.gov)
Website: www.ams.usda.gov/fs mip
Local Food Promotion Program (LFPP)
The Local Food Promotion Program (LFPP) offers grant funds with a 25-percent match to support the development and expansion of local and regional food business enterprises to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets. Two types of project applications are accepted under LFPP—planning grants and implementation grants. Applicants can apply for either but will receive only one type of grant in the same grant cycle.

• LFPP Planning Grants are used in the planning stages of establishing or expanding a local and regional food business enterprise. Activities can include but are not limited to market research, feasibility studies, and business planning.
• LFPP Implementation Grants are used to establish a new local and regional food business enterprise, or to improve or expand an existing local or regional food business enterprise. Activities can include but are not limited to training and technical assistance for the business enterprise and/or for producers working with the business enterprise; outreach and marketing to buyers and consumers; and non-construction infrastructure improvements to business enterprise facilities or information technology systems.

Agency: Agricultural Marketing Service (AMS)
Eligibility: Eligible entities may apply if they support local and regional food business enterprises that process, distribute, aggregate, or store locally or regionally produced food products. Such entities may include:
  • Agricultural businesses and cooperatives
  • Producer networks and associations
  • Community supported agriculture networks and associations
  • Other agricultural business entities (for-profit groups)
  • Nonprofit and public benefit corporations
  • Economic development corporations
  • Regional farmers’ market authorities
  • Local and tribal governments

Contact: Dewell Paez-Delgado (dewell.paez-delgado@usda.gov)
Website: www.ams.usda.gov/lfpp

Food Safety and Inspection Service (FSIS) Small and Very Small Plant Outreach
Small and very small plant owners and operators can find information about FSIS policies, technical assistance, and answers to common questions from small processors across the country.

Agency: Food Safety and Inspection Service (FSIS)
Eligibility: Tribal Organizations with fewer than 500 employees
Contact: FSIS Small Plant Help Desk: 1-877-FSISHELP (1-877-374-7435), InfoSource@fsis.usda.gov.
Website: http://www.fsis.usda.gov/wps/portal/fsis/topics/regulatory-compliance/svsp

Value Added Producer Grant Program
The VAPG program helps agricultural producers enter into value-added activities related to the processing and/or marketing of bio-based, value-added products in order to generate new products, create and expand marketing opportunities, and increase producer income.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Citizens; Tribal Organizations
Website: http://www.rd.usda.gov/programs-services/value-added-producer-grants
It started as a conversation, then became a plan, and now the Quapaw Food Service Authority just celebrated its 4-year anniversary. Back in 2016, members of the Quapaw Tribe approached USDA’s Food Safety and Inspection Service (FSIS) with their intent to build a slaughter plant on Oklahoma tribal lands to slaughter natives’ animals, service the local area, and teach young adults life skills like butchering. A slaughter facility on tribal lands didn’t exist at the time, but it was certainly possible. A small delegation visited the FSIS Dallas District Office in September 2016. They brought blueprints and pictures, and met with the Dallas District Manager, Dr. Jennifer McKean. “They just wanted to meet us and get to know us. It was about a two-hour meeting,” recalls McKean.

With the help of some grant money, including from USDA, the 25,000-square-foot facility was underway. On Aug. 31, 2017, FSIS conducted a final walk-through of the facility, and recommended approval of the Grant of Inspection. On Sept. 6, the Quapaw Food Service Authority slaughtered its first animal, five feedlot steers to be exact, over the course of 15 hours! Since its grand opening on Sept. 7, 2017, it has come a long way. “They have made continuous and steady progress since then,” says the FSIS Inspector-In-Charge there, Dr. Roger Garner. “It’s a learning process. They are faster and more efficient now. Federal inspection is not hard. There are just a multitude of small steps that you have to go through to be in compliance,” says Garner. With that said, no special consideration is given because the plant is on sovereign territory, or because it is the first of its kind. “The rules are the rules,” says Garner. McKean agrees, “We didn’t give any special treatment. The plant is very compliant. They really want to do the right thing.”

Although the facility is quite large, it is considered a very small plant by FSIS standards due to the number of employees and product volume. However, the size assists in serving as a teaching tool. “This is the only plant I’ve ever been in, and I’ve been in a lot, that has an access hall the length of the plant with large observation windows to the kill floor, cut room, processing room and packaging room,” says Garner. Before the COVID-19 pandemic, the facility was hosting weekly tours for students, FFA chapters, industry, and other tribes showing everything from processing to retail. They have also hosted student interns, who work under supervision to get a sense of the job. Despite a hopefully temporary halt in tours, business is booming. “Since the pandemic, customer orders for small and very small plants has skyrocketed,” says Garner. “We are working as much as we can work.” The plant management hopes that those student interns or students who toured the facility will soon become graduates with interest in becoming Quapaw Food Service Authority employees someday.

From 2012 to 2016, USDA Rural Development funded 17 Value Added Producer Grants, totaling over $1.4 million, to tribes, tribal producers, and tribal entities across the country. These funds have been used to strengthen tribal agriculture economies and expand market access for tribal products. The Cherokee Nation of Oklahoma, for example, received $75,000 to determine the feasibility of developing an Identity Preservation program, a non-GMO seed certification program, as well as marketing and development for the Cherokee Food brand.
4.1.5  TOOLS TO MANAGE AGRICULTURE PRICE LOSS, RISK, AND LIABILITY

Agriculture Risk Coverage and Price Loss Coverage Programs
The Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs were authorized by the 2014 and 2018 Farm Bills. This program provides revenue and price loss payments to eligible producers. Owners must one-time elect to select the type of coverage (ARC or PLC) for each of the covered commodities. Producers of covered commodities are eligible. Covered commodities include wheat, oats, barley, corn, grain sorghum, rice, soybeans, sunflower seed, rapeseed, canola, safflower, flaxseed, mustard seed, crambe and sesame seed, dry peas, lentils, small chickpeas, and large chickpeas.

Agency:  Farm Service Agency (FSA)
Eligibility:  Tribal Citizens; Tribal Organizations
Contact:  Local FSA County Office, https://www.farmers.gov/service-center-locator
Website:  http://www.fsa.usda.gov/programs-and-services/arcplc_program/index

Crop Insurance Program
The Federal Crop Insurance Program provides multi-peril crop insurance to America's farmers and ranchers to protect them against adverse weather events, natural disasters, or falling prices.

Agency:  Risk Management Agency (RMA)
Eligibility:  Tribes; Tribal Citizens; Tribal Organizations
Key Dates:  Deadlines to purchase crop insurance varies by each crop. Spring-planted crops typically have a March closing date, while fall-planted crops typically have a September closing date.

Website:  www.rma.usda.gov/fcic/

Emergency Assistance for Livestock, Honeybees, Farm-Raised Fish Program
The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides financial assistance to eligible producers of livestock, honeybees, and farm-raised fish for losses due to disease, certain adverse weather events or loss conditions, including blizzards and wildfires, as determined by the Secretary. ELAP assistance is provided to producers for losses not covered by other disaster assistance programs, such as the Livestock Forage Disaster Program (LFP) and the Livestock Indemnity Program (LIP).

Agency:  Farm Service agency (FSA)
Eligibility:  Tribal Citizens; Tribal Organizations
Contact:  Local FSA County Office, https://www.farmers.gov/service-center-locator
Website:  https://www.fsa.usda.gov/programs-and-services/disaster-assistance-program/emergency-assist-for-livestock-honey-bees-fish/index

Livestock Forage Disaster Program
The Livestock Forage Disaster Program (LFP) provides compensation to eligible livestock producers who have suffered grazing losses for covered livestock on land that is native or improved pastureland with permanent vegetative cover or is planted specifically for grazing. The grazing losses must be due to a qualifying drought condition during the normal grazing period for the county.

Agency:  Farm Service Agency (FSA)
Eligibility:  Tribal Citizens; Tribal Organizations
Contact:  Local FSA County Office, https://offices.sc.egov.usda.gov/locator/app
Website:  https://www.fsa.usda.gov/programs-and-services/disaster-assistance-program/livestock-forage/index
Livestock Indemnity Program
The Livestock Indemnity Program provides benefits to livestock producers for livestock deaths in excess of normal mortality caused by eligible loss conditions, including eligible adverse weather, eligible disease, and eligible attacks (attacks by animals reintroduced into the wild by the Federal Government or protected by Federal law, including wolves and avian predators). To be eligible for LIP, a livestock producer must have legally owned the eligible livestock on the day the livestock died. Eligible livestock include cattle, poultry, swine, sheep, goats, and other several other types of livestock.

Agency: Farm Service agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/disaster-assistance-program/livestock-indemnity/index

Margin Protection Program for Dairy
The Margin Protection Program for Dairy (MPP-Dairy) is a voluntary risk management program for dairy producers currently authorized through December 31, 2018. MPP-Dairy offers protection to dairy producers when the difference between the all milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer. MPP-Dairy offers dairy producers: (1) catastrophic coverage, at no cost to the producer, other than an annual $100 administrative fee; and (2) various levels of buy-up coverage for an additional premium charge.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/Dairy-MPP/index
Nonrecourse Marketing Assistance Loans and Loan Deficiency Payment
Nonrecourse Marketing Assistance Loans (MALs) provide producers interim financing at harvest time to help them meet cash flow needs when market prices are typically at harvest-time lows. MALs for covered commodities are nonrecourse because the commodity is pledged as loan collateral and producers have the option of delivering the pledged collateral to the Commodity Credit Corporation (CCC) as full payment for the loan at maturity. A producer who is eligible to obtain a loan, but who agrees to forgo the loan, may obtain a loan deficiency payment (LDP). An LDP is the amount by which the applicable loan rate exceeds the alternative loan repayment rate for the respective commodity.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/price-support/commodity-loans/non-recourse-loans/index

Noninsured Crop Disaster Assistance Program
The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of noninsurable crops to protect against natural disasters that result in lower yields or crop losses, or prevents crop planting. NAP provides basic coverage equivalent to the catastrophic-level risk protection plan of insurance coverage, which is based on the amount of loss that exceeds 50 percent of expected production. The 2018 Farm Bill re-authorizes higher levels of coverage ranging from 50 to 65 percent of production, in 5 percent increments, at 100 percent of the average market price.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/disaster-assistance-program/noninsured-crop-disaster-assistance/

Risk Management Education Partnership Program
The goal of this program is to ensure that producers will be better able to use financial management, farm financial benchmarking, crop insurance, marketing contracts, and other existing and emerging risk management tools. This program strives to ensure that producers are well informed of the risk management solutions available to them. The Risk Management Education Partnership Program provides funding for risk management training and informational efforts for agricultural producers through the formation of partnerships with public and private organizations.

Agency: Risk Management Agency (RMA)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Contact: Risk Management Education Division, rma.risk-ed@rma.usda.gov, (202) 720-1416
Website: http://www.rma.usda.gov/aboutrma/agreements/

Tree Assistance Program
The Tree Assistance Program (TAP) is a permanent disaster program that provides financial assistance to qualifying orchardists and nursery tree growers to replant or rehabilitate eligible trees, bushes, and vines damaged by natural disasters.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Key Dates: Program signups vary. Loan applications are always available.
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/disaster-assistance-program/tree-assistance-program/index
4.1.6 ACCESS TO HEALTHY FOODS AND NUTRITION LITERACY

Child and Adult Care Food Program
The Child and Adult Care Food Program (CACFP) plays a vital role in improving the quality of daycare by making it more affordable for low-income providers and by encouraging homes and centers to serve nutritious meals to eligible children attending daycare. Children receive nutritious meals and snacks for which providers receive reimbursements through CACFP. The program also provides meals and snacks to adults who receive care in nonresidential adult daycare centers. CACFP reaches even further to provide meals to children residing in homeless shelters, as well as snacks and suppers to youths participating in eligible after-school care programs.

Agency: Food and Nutrition Service (FNS)
Eligibility: Tribal Citizens, Tribal Organizations
Website: https://www.fns.usda.gov/contacts

ChooseMyPlate.gov
The ChooseMyPlate.gov Website provides information for consumers as well as message multipliers on healthy eating and physical activity. MyPlate teaches the 5 food groups: fruits, vegetables, grains, protein foods, and dairy. Consumers are encouraged to visit the ChooseMyPlate.gov website for resources including the MyPlate Plan, tip sheets and infographics, testimonial videos with real families, eating on a budget, interactive tools, quizzes, and the ability to submit tips and testimonials.

Agency: Center for Nutrition Policy and Promotion (CNPP)
Eligibility: Tribal Citizens
Contact: Center for Nutrition Policy and Promotion, 703-305-7600
Website: https://www.ChooseMyPlate.gov/

Commodity Supplemental Food Program
The Commodity Supplemental Food Program (CSFP) works to improve the health of low-income elderly persons at least 60 years of age by supplementing their diets with nutritious foods purchased by USDA and distributed by State agencies and Indian Tribal Organizations (ITOs) directly to participants and/or to local health, social services, education, or agriculture organizations.

Agency: Food and Nutrition Service (FNS)
Eligibility: Tribal Elders at least 60 years of age
Contact: State Food Distribution Offices, https://www.fns.usda.gov/contacts?f%5B0%5D=program%3A26
Website: http://www.fns.usda.gov/csfp/commodity-supplemental-food-program-csfp
Community Foods Projects
Community Food Projects (CFP) tends to fund three types of grants. The types are entitled (1) CFP, (2) Planning Projects (PP) and (3) Training and Technical Assistance (T & TA) Projects. The primary goals of the CFP are to:

- Meet the food needs of low-income individuals through food distribution, community outreach to assist in participation in Federally assisted nutrition programs, or improving access to food as part of a comprehensive service;
- Increase the self-reliance of communities in providing for the food needs of the communities;
- Promote comprehensive responses to local food access, farm, and nutrition issues; and
- Meet specific state, local, or neighborhood food and agricultural needs including needs relating to:
  - Equipment necessary for the efficient operation of a project; and
  - Planning for long-term solutions; or the creation of innovative marketing activities that mutually benefit agricultural producers and low-income consumers.

Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Organizations
Contact: Dr. Jane Clary Loveless, jane.clary@usda.gov
Website: https://nifa.usda.gov/funding-opportunity/community-food-projects-cfp-competitive-grants-program

Food Distribution Program on Indian Reservations
The Food Distribution Program on Indian Reservations (FDPIR) provides USDA Foods to income-eligible households living on Indian reservations and households living in approved areas near reservations or in Oklahoma that contain at least one person who is a member of a Federally recognized Tribe. Many Tribal households participate in FDPIR as an alternative to the Supplemental Nutrition Assistance Program (SNAP) because they do not have easy or reliable access to SNAP offices or authorized retail food stores.

Agency: Food and Nutrition Service (FNS)
Eligibility: Income-eligible Tribal Citizens that reside on a reservation, on designated areas near reservations, or in Oklahoma
Contact: FNS, 703-305-2062
Website: http://www.fns.usda.gov/fdpir/food-distribution-program-indian-reservations-fdpir

National School Lunch Program
Under the National School Lunch Program (NSLP), participating school districts and independent schools and residential child care institutions receive cash reimbursements and donated commodities from USDA for each meal they serve. In return, they must serve lunches that meet Federal requirements, and they must offer free or reduced-price lunches to eligible low-income children. School districts can also be reimbursed for snacks served to children through age 18 in after-school educational or enrichment programs.

Agency: Food and Nutrition Service (FNS)
Eligibility: Income-eligible Tribal Citizens and the Tribal Organizations that serve them may receive assistance through State Agencies. At the State level, the National School Lunch Program is usually administered by State education agencies, which operate the program through agreements with school food authorities.
Contact: Local School Meals Contacts, https://www.fns.usda.gov/contacts
Website: http://www.fns.usda.gov/nslp/national-school-lunch-program-nslp
Office of Community Food Systems (including Farm to School Program, Farm to Summer and Farm to CACFP Programs)

The Office of Community Food Systems (OCFS) helps child nutrition program operators incorporate local foods in the National School Lunch Program (https://www.fns.usda.gov/nslp) and its associated programs, as well as the Summer Food Service Program (https://www.fns.usda.gov/sfsp/summer-food-service-program) and Child and Adult Care Food Program (https://www.fns.usda.gov/cacfp/child-and-adult-care-food-program). In addition, OCFS staff works with Tribal communities to respond to their desire to better incorporate traditional foods into our meal programs. OCFS accomplishes this through grant making (https://www.fns.usda.gov/cfs/farm-school-grant-program), training and technical assistance (https://www.fns.usda.gov/cfs/procuring-local-foods) and research (https://farmtoschoolcensus.fns.usda.gov/).

Agency: Food and Nutrition Service (FNS)
Eligibility: Tribes
Contact: State Food Distribution Offices, https://www.fns.usda.gov/contacts?f%5B0%5D=program%3A27
Website: https://www.fns.usda.gov/cfs
https://www.fns.usda.gov/cfs/usda-farm-school-grant-program-facts

School Breakfast Program

The School Breakfast Program (SBP) operates in the same manner as the NSLP. School districts and independent schools that choose to take part in the breakfast program receive cash reimbursement from USDA for each meal they serve. In return, they must serve breakfasts that meet Federal requirements, and they must offer free or reduced-price breakfasts to eligible children.

Agency: Food and Nutrition Service (FNS)
Eligibility: Tribal Citizens and Tribal Organizations may receive assistance through State Agencies
Contact: Local School Meals Contacts, https://www.fns.usda.gov/contacts
Website: http://www.fns.usda.gov/sbp/school-breakfast-program-sbp

Senior Farmers’ Market Nutrition Program (SFMNP)

The Senior Farmers’ Market Program (SFMNP) awards grants to States, U.S. Territories, and Federally recognized Tribal governments to provide low-income seniors with coupons that can be exchanged for fresh, nutritious, unprepared, locally grown fruits, vegetables, herbs and honey at farmers’ markets, roadside stands, and community-supported agriculture (CSA) programs. Currently, 54 State agencies, including Indian Tribal Organizations and U.S. Territories, administer SFMNP.

Agency: Food and Nutrition Service (FNS)
Eligibility: Low-income Tribal citizens
Contact: Local SFMNP Contacts: https://www.fns.usda.gov/sfmnp/sfmnp-contacts
Website: http://www.fns.usda.gov/sfmnp/senior-farmers-market-nutrition-program-sfmnp

Special Supplemental Nutrition Program for Women, Infants, and Children

The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) serves to safeguard the health of low-income pregnant, breastfeeding, and postpartum women, infants, and children up to age five who are at nutritional risk by providing nutritious foods to supplement their diets, nutrition education, and referrals to health and other social services at no cost. Participants must meet income guidelines, a State residency requirement, and must be individually determined to be at “nutritional risk” by a health professional.

Agency: Food and Nutrition Service (FNS)
Eligibility: Income-eligible women, infants, and children at nutritional risk
Website: http://www.fns.usda.gov/wic/women-infants-and-children-wic
Summer Food Service Program
The Summer Food Service Program (SFSP) provides free, nutritious meals and snacks to help children in low-income areas get the nutrition they need to learn, play, and grow during school vacations. Children who are age 18 and under, and people over age 18 who are determined by a State educational agency to have a mental or physical disability, may receive meals through the SFSP when school is out. SFSP meals are accessible to children through local sponsors who provide meals at feeding sites such as schools, community centers, parks, churches, pools, housing projects, playgrounds, migrant centers, or Indian reservations.

Agency: Food and Nutrition Service (FNS)
Eligibility: Tribes; Tribal Organizations; Tribal Schools
Contact: Local Summer Food Service Program Office, https://www.fns.usda.gov/contacts
Website: http://www.fns.usda.gov/sfsp/summer-food-service-program

Supplemental Nutrition Assistance Program
The Supplemental Nutrition Assistance Program (SNAP) provides low-income households with benefits on an electronic debit card that they can use to purchase healthy foods at most grocery stores. SNAP provides crucial nutrition assistance to needy households and to those moving forward to self-sufficiency. SNAP participants may also receive nutrition education or employment training services. Household may not participate in SNAP and FDPIR at the same time.

Agency: Food and Nutrition Service (FNS)
Eligibility: Low Income Tribal Citizens; For detailed eligibility requirements, please visit https://www.fns.usda.gov/snap/recipient/eligibility
Contact: Local SNAP Office, https://www.fns.usda.gov/snap/state-directory
Website: https://www.fns.usda.gov/snap/supplemental-nutrition-assistance-program

The Emergency Food Assistance Program
The Emergency Food Assistance Program (TEFAP) is a Federal program that helps supplement the diets of low-income Americans by providing them with emergency food assistance at no cost. USDA provides 100% American-grown USDA Foods and administrative funds to states to operate TEFAP. Indian Tribal Organizations that provide food assistance to needy persons are eligible to enter into agreements with State agencies to service as TEFAP eligible recipient agencies.

Agency: Food and Nutrition Service (FNS)
Eligibility: Low-income Tribal Citizens
Contact: State Food Distribution Offices, https://www.fns.usda.gov/contacts?f%5B0%5D=program%3A27
Website: https://www.fns.usda.gov/tefap/emergency-food-assistance-program

What’s Cooking? USDA Mixing Bowl
Please note, the What’s Cooking? USDA Mixing Bowl recipe website is moving to the ChooseMyPlate.gov website this fall. The recipe website will get a new look and name—MyPlate Kitchen. The website will feature the same great recipes and resources from CNPP and SNAP that support building healthy and budget-friendly meals.

MyPlate Kitchen will be available early October 2019.

Agency: Center for Nutrition Policy and Promotion (CNPP)
Contact: Center for Nutrition Policy and Promotion, (703) 305-7600
Website: https://www.whatscooking.fns.usda.gov/
WIC Farmers’ Market Nutrition Program
The WIC Farmers’ Market Nutrition Program awards grants to States, U.S. Territories, and Federally recognized Tribal governments to provide WIC participants with checks or coupons that can be exchanged for fresh, unprepared, locally grown fruits, herbs, and vegetables at farmers’ markets and roadside stands. Currently, 49 State agencies, including Indian Tribal Organizations and U.S. Territories, administer the FMNP.

Agency: Food and Nutrition Service (FNS)
Eligibility: Currently, 45 State agencies and Indian Tribal Organizations administer the FMNP. A full list of states and tribes administering WIC Farmers Markets is available at http://www.fns.usda.gov/fmnp/fmnp-contacts.
Contact: FNS, 703-305-2062
Website: http://www.fns.usda.gov/fmnp/wic-farmers-market-nutrition-program-fmnp

4.1.7 SHARING THE STORY: PROGRAM RECEIVES GOLD AWARD FOR EXCELLENCE IN BREASTFEEDING PROMOTION AND SUPPORT:
The U.S. Department of Agriculture, Food and Nutrition Service (FNS), Special Supplemental Nutrition Program for Women, Infants and Children (WIC) WIC Program aims to safeguard the health of low-income women, infants, and children up to age five who are at nutrition risk by providing nutritious foods to supplement diets, information on healthy eating, and referrals to health care. Breastfeeding is considered the healthiest nutrition option for most infants and a benefit for post-partum women and is a priority of the WIC Program. To encourage breastfeeding, the WIC Program provides breastfeeding promotion and support for pregnant and postpartum mothers as a part of its mission. Each year FNS recognizes exemplary breastfeeding promotion and support efforts of local WIC agencies under the Loving Support Award of Excellence program. The intent is to provide models and motivate other local agencies to strengthen their breastfeeding promotion and support activities. The Loving Support Award of Excellence is given at three levels of performance that build on one another: Gold, Premiere, and Elite. In fiscal year 2020 there were a total of 99 Gold Awards and 12 Premiere Awards awarded across the Nation. On August 1, 2020, the Standing Rock Sioux Tribe (SRST) WIC Program, located in Fort Yates, North Dakota, was one of three (3) Indian Tribes across the Nation honored with a Gold Loving Support Award of Excellence for their Breastfeeding Peer Counseling (BFPC) Program. The SRST BFPC Program works closely with Indian Health Service, Healthy Start, Tribal Health and other Tribal and community programs in an effort to promote and support breastfeeding efforts of new moms in their service area.

4.1.8 BIOFUELS AND BIOBASED PRODUCTS
Biomass Crop Assistance Program
The Biomass Crop Assistance Program (BCAP) is a voluntary program for agricultural and forestland owners and operators. BCAP supports the production and use of biomass crops for conversion to bioenergy or for the development of bio-based products. BCAP provides assistance in three ways: (1) Establishment payments for growing new biomass crops; (2) Maintenance payments to maintain the new biomass crop as it matures until harvest; and (3) Retrieval matching payments to help with the cost of sustainably harvesting and transporting agricultural or forest residues to an energy facility (biomass conversion facility).
Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: http://www.fsa.usda.gov/programs-and-services/energy-programs
4.1.9 EXPORTING AND IMPORTING COMMODITIES

Export Credit Guarantee Program
The Export Credit Guarantee Program provides credit guarantees to encourage financing of commercial exports of U.S. agricultural products. By reducing financial risk to lenders, credit guarantees encourage exports to buyers in countries—mainly developing countries—that have sufficient financial strength to have foreign exchange available for scheduled payments.

Agency: Foreign Agricultural Service (FAS)
Eligibility: Tribes; Tribal Organizations
Contact: Credit Programs Division, registrations@fas.usda.gov, (202) 720-6211
Website: http://www.fas.usda.gov/programs/export-credit-guarantee-program-gsm-102

Emerging Markets Program (EMP)
The Emerging Markets Program (EMP) provides cost-share funding for U.S. organizations to promote exports of U.S. agricultural products to countries that have—or are developing—market-oriented economies and that have the potential to be viable commercial markets. Examples of approved technical assistance activities include feasibility studies, market research, sectorial assessments, orientation visits, specialized training, and business workshops.

Agency: Foreign Agricultural Service (FAS)
Eligibility: Tribes; Tribal Organizations
Contact: Office of Trade Programs, podadmin@fas.usda.gov
Website: https://www.fas.usda.gov/programs/emerging-markets-program-emp
Facility Guarantee Program
The Facility Guarantee Program is designed to boost sales of U.S. agricultural products in countries where demand may be limited due to inadequate storage, processing, handling, or distribution capabilities. The program provides credit guarantees to help finance manufactured goods and U.S. services that improve or establish agriculture-related facilities in emerging markets.

- **Agency:** Foreign Agricultural Service (FAS)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** Credit Programs Division, gsm.registrations@fas.usda.gov, (202) 720-6211
- **Website:** http://www.fas.usda.gov/programs/facility-guarantee-program

Foreign Market Development (FMD) Program
Also known as the Cooperator Program, the Foreign Market Development Program helps create, expand, and maintain long-term export markets for U.S. agricultural products. FAS partners with U.S. agricultural producers and processors, who are represented by non-profit commodity or trade associations called “cooperators,” to 1) reduce foreign import constraints, or 2) expand export growth opportunities.

- **Agency:** Foreign Agricultural Service (FAS)
- **Eligibility:** Tribal Organizations
- **Contact:** Office of Trade Programs, podadmin@fas.usda.gov
- **Website:** https://www.fas.usda.gov/programs/foreign-market-development-program-fmd

Market Access Program (MAP)
The Market Access Program (MAP) promotes overseas marketing and promotional activities that help build commercial export markets for U.S. agricultural products and commodities.

- **Agency:** Foreign Agricultural Service (FAS)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** Office of Trade Programs, podadmin@fas.usda.gov, (202) 720-4327
- **Website:** http://www.fas.usda.gov/programs/market-access-program-map
Quality Samples Program (QSP)
The Quality Samples Program enables potential customers around the world to discover the quality and benefits of U.S. agricultural products. The program focuses on processors and manufacturers rather than consumers, and QSP projects should benefit an entire industry or commodity rather than a specific company or product. Projects should focus on developing a new market or promoting a new use for the U.S. product.

Agency: Foreign Agricultural Service (FAS)
Eligibility: Tribes; Tribal Organizations
Contact: Office of Trade Programs, podadmin@fas.usda.gov, (202) 720-4327
Website: https://www.fas.usda.gov/programs/quality-samples-program-qsp

4.2 Indian Country Economic Development
USDA offers a suite of programs designed to provide financial backing and technical assistance to stimulate business creation and growth in rural communities. The programs work through partnerships with public and private community-based organizations and financial institutions to provide financial assistance, business development, and technical assistance to rural and Tribal businesses. These programs help to provide capital, equipment, space, job training, and entrepreneurial skills that can help to start and/or grow a business. These programs also support the creation and preservation of quality jobs in tribal areas.

4.2.1 BUSINESS DEVELOPMENT

Business and Industry Loan Guarantee Program
This program bolsters the existing private credit structure through the guaranteeing of loans for rural businesses, allowing private lenders to extend more credit than they would typically be able to.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Citizens; Tribal Organizations

Intermediary Relending Program
Provides 1% low-interest loans to local intermediaries that re-lend to businesses and for community development projects in rural communities.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: USDA RD State Office; http://www.rd.usda.gov/contact-us/state-offices
Website: http://www.rd.usda.gov/programs-services/intermediary-relending-program

Small Business Innovation Research Program - SBIR
Funds may be awarded up to $100,000 for a Phase I project. Proposed Phase I projects should prove the scientific or technical feasibility of the approach or concept. Projects dealing with agriculturally related manufacturing and alternative and renewable energy technologies are encouraged across all SBIR topic areas. USDA SBIR’s flexible research areas ensure innovative projects consistent with USDA’s vision of a healthy and productive Nation in harmony with the land, air, and water. USDA’s SBIR Program has awarded over 2,000 research and development projects since 1983, allowing hundreds of small businesses to explore their technological potential, and providing an incentive to profit from the commercialization of innovative ideas. Click below for more SBIR information.

Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Organizations with less than 500 employees
Website: https://nifa.usda.gov/funding-opportunity/small-business-innovation-research-program-phase-i
4.2.2 GOVERNMENT AND COMMUNITY FACILITIES

Community Facilities Direct Loan & Grant Program
This program provides affordable funding to develop essential community facilities in rural areas. An essential community facility is defined as a facility that provides an essential service to the local community for the orderly development of the community in a primarily rural area, and does not include private, commercial, or business undertakings.

- **Agency:** Rural Development (RD)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** USDA RD State Office; http://www.rd.usda.gov/contact-us/state-offices
- **Website:** https://www.rd.usda.gov/programs-services/community-facilities-direct-loan-grant-program

Community Facilities Economic Impact Initiative Grants
This program provides funding to assist in the development of essential community facilities in rural communities with extreme unemployment and severe economic depression. An essential community facility is one that provides an essential service to the local community, is needed for the orderly development of the community, serves a primarily rural area, and does not include private, commercial, or business undertakings.

- **Agency:** Rural Development (RD)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** USDA RD State Office, http://www.rd.usda.gov/contact-us/state-offices
- **Website:** http://www.rd.usda.gov/programs-services/economic-impact-initiative-grants

Community Facilities Guaranteed Loan Program
This program provides loan guarantees to eligible private lenders to help build essential community facilities in rural areas. An essential community facility is defined as a facility that provides an essential service to the local community for the orderly development of the community in a primarily rural area, and does not include private, commercial or business undertakings.

- **Agency:** Rural Development (RD)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** USDA RD State Office, http://www.rd.usda.gov/contact-us/state-offices
- **Website:** https://www.rd.usda.gov/programs-services/community-facilities-guaranteed-loan-program

4.2.3 TELECOMMUNICATIONS & BROADBAND

Community Connect Grant Program
This program helps fund broadband deployment into rural communities where it is not yet economically viable for private-sector providers to deliver service.

- **Agency:** Rural Development (RD)
- **Eligibility:** Most State and local governments, Federally recognized tribes, non-profits, or for-profit corporations. Rural areas that lack any existing broadband speed of at least 4 Mbps downstream and 1 Mbps upstream are eligible.
- **Program Contact:** Rural Utility Service Telecom Program Loan Origination and Approval Division, (202) 720-0800, Community.Connect@wdc.usda.gov
- **Website:** https://www.rd.usda.gov/programs-services/community-connect-grants
**Telecommunications Infrastructure Loans & Loan Guarantees**

This program provides financing for the construction, maintenance, improvement, and expansion of telephone service and broadband in rural areas.

**Agency:** Rural Development (RD)

**Eligibility:** Tribes; Tribal Organizations

**Contact:** Loan Origination and Approval Division, (202) 720-0800

**Rural Broadband Loans & Loan Guarantees**

The Rural Broadband Access Loan and Loan Guarantee Program (Broadband Program) furnishes loans and loan guarantees to provide funds for the costs of construction, improvement, or acquisition of facilities and equipment needed to provide service at the broadband lending speed in eligible rural areas.

**Agency:** Rural Development (RD)

**Eligibility:** Tribes; Tribal Organizations

**Contact:** Rural Utility Service Telecom Program Loan Origination and Approval Division, (202) 720-0800

**Website:** [https://www.rd.usda.gov/programs-services/farm-bill-broadband-loans-loan-guarantees](https://www.rd.usda.gov/programs-services/farm-bill-broadband-loans-loan-guarantees)

**Distance Learning & Telemedicine Grants**

The Distance Learning and Telemedicine program helps rural communities use the unique capabilities of telecommunications to connect to each other and to the world, overcoming the effects of remoteness and low population density. For example, this program can link teachers and medical service providers in one area to students and patients in another.

**Agency:** Rural Development (RD)

**Eligibility:** Tribes; Tribal Organizations

**Contact:** RUS Telecom Program Loan Origination and Approval Division, dltinfo@wdc.usda.gov, (202) 720-0800

**Website:** [https://www.rd.usda.gov/programs-services/distance-learning-telemedicine-grants](https://www.rd.usda.gov/programs-services/distance-learning-telemedicine-grants)

### 4.2.4 ENERGY & ELECTRICITY

**Distributed Generation Energy Project Financing**

The RUS Electric Program can provide loans and loan guarantees to energy project developers for distributed energy projects including renewables that provide wholesale or retail electricity to existing Electric Program borrowers or to rural communities served by other utilities. Electric Program project financing loans follow the same regulatory requirements and processes as do our traditional electric infrastructure loans and loan guarantees (also known as system loans or loans for rural electrification).

Distributed generation projects, including generation from renewable resources, are providing more power supply options for rural communities. There is growing interest among electric cooperatives to enter into power purchase agreements (PPAs) with project developers or to interconnect distributed generation projects directly into their systems.

**Agency:** Rural Development (RD)

**Eligibility:** Tribes; Tribal Organizations

**Contact:** Office of Loan Origination & Approval, Joe.Badin@wdc.usda.gov

**Website:** [https://www.rd.usda.gov/programs-services/distributed-generation-energy-project-financing](https://www.rd.usda.gov/programs-services/distributed-generation-energy-project-financing)
Electric Infrastructure Loan & Loan Guarantee Program

The electric program makes insured loans and loan guarantees to nonprofit and cooperative associations, public bodies, and other utilities. Insured loans primarily finance the construction of electric distribution facilities in rural areas. The guaranteed loan program has been expanded and is now available to finance generation, transmission, and distribution facilities. The loans and loan guarantees finance the construction of electric distribution, transmission, and generation facilities, including system improvements and replacement required to furnish and improve electric service in rural areas, as well as demand side management, energy conservation programs, and on-grid and off-grid renewable energy systems.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: Rural Utilities Service, Electric Program Office of Loan Origination and Approval, (202) 720-1422
Website: https://www.rd.usda.gov/programs-services/electric-infrastructure-loan-loan-guarantee-program

Energy Efficiency and Conservation Loan Program

The Energy Efficiency and Conservation Loan Program (EECLP) provides loans to finance energy efficiency and conservation projects for commercial, industrial, and residential consumers. With the EECLP, eligible utilities, including existing Rural Utilities Service borrowers, can borrow money tied to Treasury rates of interest and re-lend the money to develop new and diverse energy service products within their service territories. For instance, borrowers could set up on-bill financing programs whereby customers in their service territories implement energy-efficiency measures behind the meter and repay the loan to the distribution utility through their electric bills.

Agency: Rural Development (RD)
Eligibility: Tribal Organizations
Contact: Rural Utilities Service - Electric Program, (202) 720-9545
Website: https://www.rd.usda.gov/programs-services/energy-efficiency-and-conservation-loan-program
High Energy Cost Grant Program
Assists energy providers and other eligible entities in lowering energy costs for families and individuals in areas with extremely high per-household energy costs (275 percent of the national average or higher.)
Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: Rural Utilities Service - Electric Program, High Energy Cost Grants Program,
(202) 720-9545
Website: http://www.rd.usda.gov/programs-services/high-energy-cost-grants

Rural Energy for America Program Energy Audit & Renewable Energy Development Assistance Grants
Grantees assist rural small businesses and agricultural producers by conducting and promoting energy audits, and providing renewable energy development assistance (REDA).
Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Key Dates: Review application dates in current Notice of Funding Availability.
Website: https://www.rd.usda.gov/programs-services/rural-energy-america-program-energy-audit-renewable-energy-development-assistance

Rural Energy for America Program Renewable Energy Systems & Energy Efficiency Improvement Loans & Grants
Provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses for renewable energy systems or to make energy-efficiency improvements.
Agency: Rural Development (RD)
Eligibility: Tribal Citizens; Tribal Organizations
Website: https://www.rd.usda.gov/programs-services/rural-energy-america-program-renewable-energy-systems-energy-efficiency

Rural Energy Savings Program
The Rural Energy Savings Program (RESP) helps rural families and small businesses achieve cost savings by providing loans to qualified consumers to implement durable cost-effective energy-efficiency measures.
Agency: Rural Development (RD)
Eligibility: Tribal Organizations
Key Dates: Applications for this program will be accepted on a first-come first-served basis until the depletion of available funding. Please see the funding announcement which provides detailed information on the RESP, including how to apply.
Contact: Titilayo Ogunyale, Titilayo.Ogunyale@usda.gov, (202) 720-0736
Website: http://www.rd.usda.gov/programs-services/rural-energy-savings-program
4.2.5 RESTORING TRIBAL LANDS

Highly Fractionated Indian Land Loans
Highly fractionated Indian land loans provide loans to qualified intermediary lenders that will relend the funds to qualified tribes and individuals to reduce or eliminate fractionated ownership interests of Indian lands. Participating intermediary lenders must be approved by FSA. The lenders may be private and tribal nonprofit corporations, public agencies, Indian tribes or lenders subject to Federal or state regulation (such as a credit union or other financial institution). To receive a loan from the intermediary, they must:

- comply with highly erodible land conservation and wetland conservation requirements on all their land;
- agree to continue to use the land for agricultural purposes during the term of the loan; and
- agree to comply with the requirements of the intermediary lender; funds may be used to pay costs incidental to land acquisition, including, but not limited to, title clearance, legal services, archeological or land surveys, and loan closing; may be used to pay for costs of an appraisal conducted for this loan; and be able to purchase fractionated interests resulting in at least 51-percent ownership.

Agency: Farm Service Agency (FSA)
Eligibility: Tribes and/or Tribal Organizations as Intermediary, with the Tribal Citizens as the End Recipient
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: http://www.fsa.usda.gov/state-offices/index

Indian Tribal Land Acquisition
Indian Tribal Land Acquisition Program (ITLAP) loans enable Indian tribes to purchase privately held lands that lie within their reservations. Loan funds may be used to pay expenses incidental to the purchase of the land, but not for land development.

Agency: Farm Service Agency (FSA)
Eligibility: Tribes
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator

4.2.6 HOUSING

Farm Labor Housing Direct Loans & Grants
This program provides affordable financing to develop housing for year-round and migrant or seasonal domestic farm laborers.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Citizens; Tribal Organizations
Website: http://www.rd.usda.gov/programs-services/farm-labor-housing-direct-loans-grants

Housing Preservation & Revitalization Demonstration Loans & Grants
The program restructures loans for existing Rural Rental Housing and Off-Farm Labor Housing projects to help improve and preserve the availability of safe, affordable rental housing for low-income residents.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Website: https://www.rd.usda.gov/programs-services/housing-preservation-revitalization-demonstration-loans-grants
**Housing Preservation Grants**
The program provides grants to sponsoring organizations for the repair or rehabilitation of housing occupied by income-eligible people.

- **Agency:** Rural Development (RD)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** USDA RD State Office, [http://www.rd.usda.gov/contact-us/state-offices](http://www.rd.usda.gov/contact-us/state-offices)
- **Website:** [http://www.rd.usda.gov/programs-services/housing-preservation-grants](http://www.rd.usda.gov/programs-services/housing-preservation-grants)

**Multi-Family Housing Direct Loans**
This program provides competitive financing for affordable multi-family rental housing for low-income, elderly, or disabled individuals and families in eligible rural areas.

- **Agency:** Rural Development (RD)
- **Eligibility:** Tribes; Tribal Citizens; Tribal Organizations
- **Contact:** USDA RD State Office, [http://www.rd.usda.gov/contact-us/state-offices](http://www.rd.usda.gov/contact-us/state-offices)

**Multi-Family Housing Loan Guarantees**
The program works with qualified private-sector lenders to provide financing to qualified borrowers to increase the supply of affordable rental housing for low- and moderate-income individuals and families in eligible rural areas and towns.

- **Agency:** Rural Development (RD)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** USDA RD State Office: [http://www.rd.usda.gov/contact-us/state-offices](http://www.rd.usda.gov/contact-us/state-offices)
Multi-Family Housing Rental Assistance
This program provides payments to owners of USDA-financed Rural Rental Housing or Farm Labor Housing projects on behalf of low-income tenants unable to pay their full rent.

Agency: Rural Development (RD)
Eligibility: Tribal Organizations
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: http://www.rd.usda.gov/programs-services/multi-family-housing-rental-assistance

Single Family Housing Direct Home Loans
Also known as the Section 502 Direct Loan Program, this program assists low- and very-low-income applicants obtain decent, safe, and sanitary housing in eligible rural areas by providing payment assistance to increase an applicant’s repayment ability. Payment assistance is a type of subsidy that reduces the mortgage payment for a short time. The amount of assistance is determined by the adjusted family income.

Agency: Rural Development (RD)
Eligibility: Tribal Citizens
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/single-family-housing-direct-home-loans

Single Family Housing Guaranteed Loan Program
This program assists approved lenders in providing low- and moderate-income households the opportunity to own adequate, modest, decent, safe, and sanitary dwellings as their primary residence in eligible rural areas. Eligible applicants may build, rehabilitate, improve, or relocate a dwelling in an eligible rural area. The program provides a 90%-loan note guarantee to approved lenders in order to reduce the risk of extending 100% loans to eligible rural homebuyers.

Agency: Rural Development (RD)
Eligibility: Tribal Citizens
Website: https://www.rd.usda.gov/programs-services/single-family-housing-guaranteed-loan-program
Single Family Housing Repair Loans and Grants
Also known as the Section 504 Home Repair program, this provides the following: 1) loans to very-low-income homeowners to repair, improve, or modernize their homes, or 2) grants to elderly very-low-income homeowners to remove health and safety hazards.

Agency: Rural Development (RD)
Eligibility: Tribal Citizens
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/single-family-housing-repair-loans-grants

4.2.7 COMMUNITY DEVELOPMENT

Rural Business Development Grant Program
RBDG is a competitive grant designed to support targeted technical assistance, training, and other activities leading to the development or expansion of small and emerging private businesses in rural areas that have fewer than 50 employees and less than $1 million in gross revenues. Programmatic activities are separated into enterprise or opportunity-type grant activities.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: http://www.rd.usda.gov/programs-services/rural-business-development-grants

Rural Community Development Initiative Grants
This program provides funding to help non-profit housing and community development organizations support housing, community facilities, and community and economic development projects in rural areas.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/rural-community-development-initiative-grants

Rural Cooperative Development Grant Program
The primary objective of the RCDG program is to improve the economic condition of rural areas by assisting individuals and businesses in the startup, expansion, or operational improvement of rural cooperatives and other mutually owned businesses through Cooperative Development Centers. Grants are awarded through a national competition.

Agency: Rural Development (RD)
Eligibility: Tribal Organizations; Tribal Colleges & Universities
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/rural-cooperative-development-grant-program

Rural Microentrepreneur Assistance Program
Provides loans and grants to Microenterprise Development Organizations (MDOs) to provide microloans for microenterprise startups and growth through a Rural Microloan Revolving Fund and to provide training and technical assistance to microloan borrowers and micro entrepreneurs.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/rural-microentrepreneur-assistance-program
Special Evaluation Assistance for Rural Communities and Households Program (SEARCH)
The program helps very small, financially distressed rural communities with predevelopment feasibility studies, design assistance, and technical assistance on proposed water and waste disposal projects.
Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/search-special-evaluation-assistance-rural-communities-and-households

4.2.8 WATER & WASTE WATER

Household Water Well System Grant Program
This program helps qualified non-profits and Tribes create a revolving loan fund (RLF) to extend access to clean, reliable water to households in eligible rural areas.
Agency: Rural Development (RD)
Eligibility: Tribal Organizations
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: http://www.rd.usda.gov/programs-services/household-water-well-system-grants

Individual Water & Wastewater Grant Program
Individual Water and Wastewater Grants (WWD) provide government funds to households residing in an area recognized as a Colonia before October 1, 1989. Grant funds may be used to connect service lines to a residence, pay utility hook-up fees, and install plumbing and related fixtures, i.e. bathroom sink, bathtub or shower, commode, kitchen sink, water heater, outside spigot, or bathroom, if lacking.
Agency: Rural Development (RD)
Eligibility: Tribal Citizens in states with Colonias, and those are Arizona, California, New Mexico, and Texas. The colonia must be located in a rural area (unincorporated areas and any city or town with a population not in excess of 10,000 inhabitants) and is identified as a community designated in writing by the State or county in which it is located.
Program Contact: USDA RD State Office: www.rd.usda.gov/contact-us/state-offices
Website: http://www.rd.usda.gov/programs-services/individual-water-wastewater-grants

Rural Alaska Village Grant Program
The program helps remote Alaskan Villages provide safe, reliable drinking water and waste disposal systems for households and businesses.
Agency: Rural Development (RD)
Eligibility: Tribes
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/grants-rural-and-native-alaskan-villages

Solid Waste Management Grant Program
This program helps reduce or eliminate pollution of water resources through funding for organizations that provide technical assistance or training to improve the planning and management of solid waste sites.
Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: http://www.rd.usda.gov/programs-services/solid-waste-management-grants
Water & Waste Disposal Grant Program to Alleviate Health Risks on Tribal Lands and Colonias
This program provides access to safe, reliable drinking water and waste disposal facilities and services to low-income communities that face significant health risks.

Agency: Rural Development (RD)
Eligibility: Tribes and Tribal Organizations serving areas recognized as Colonias before October 1, 1989.
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices

Water & Waste Disposal Loan & Grant Program
Provides funding for clean and reliable drinking water systems, sanitary sewage disposal, sanitary solid waste disposal, and storm water drainage to households and businesses in eligible rural areas.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/water-waste-disposal-loan-grant-program

Water & Waste Disposal Loan Guarantee Program
The program helps private lenders provide affordable financing to qualified borrowers to improve access to clean, reliable water and waste disposal systems for households and businesses in rural areas.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: http://www.rd.usda.gov/programs-services/water-waste-disposal-loan-guarantees

Water & Waste Disposal Predevelopment Planning Grant Program
The program assists low-income communities with initial planning and development of an application for RD Water and Waste Disposal direct loan/grant and loan guarantee programs.

Agency: Rural Development (RD)
Eligibility: Tribes; Tribal Organizations
Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
Website: https://www.rd.usda.gov/programs-services/water-waste-disposal-predevelopment-planning-grants
Water & Waste Disposal Revolving Loan Fund Program
This program helps qualified non-profits create a revolving loan fund (RLF) that can provide financing for the extension and improvement of water and waste disposal systems in rural areas.

- Agency: Rural Development (RD)
- Eligibility: Tribes; Tribal Organizations
- Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
- Website: https://www.rd.usda.gov/programs-services/water-waste-disposal-revolving-loan-funds

Water & Waste Disposal Technical Assistance & Training Grant Program
This program helps qualified, private non-profits provide technical assistance and training to (a) identify and evaluate solutions to water and waste problems; (b) assist applicants in preparing applications for water and waste disposal loans/grants; and (c) assist associations in improving operation and maintenance of existing water and waste facilities in eligible rural areas.

- Agency: Rural Development (RD)
- Eligibility: Tribal Organizations
- Contact: USDA RD State Office: http://www.rd.usda.gov/contact-us/state-offices
- Website: https://www.rd.usda.gov/programs-services/water-waste-disposal-technical-assistance-training-grants

4.2.9 SHARING THE STORY: RELIABLE INFRASTRUCTURE PROVIDED TO THE PINE RIDGE COMMUNITY
Pine Ridge is the most populous community in Oglala Lakota County, SD with a population of 3,308. It is located inside the Pine Ridge Indian Reservation and is the tribal headquarters for the Oglala Sioux Tribe.

The lift station in Pine Ridge was in very poor condition with pump failure and raw sewage discharge occurring far too often. The lift station was nearing the end of its useful life. The Oglala Sioux Tribe (OST) was in compliance with all applicable regulations, but at times when the lift station pumps would fail causing environmental and health concerns.
To protect the health and safety of the residents of Pine Ridge, a new double box culvert duplex lift station, all necessary appurtenances to fully replace the existing lift station, and an emergency standby generator were installed.

These improvements eliminated any further discharge and it meets the existing and future needs for pumping sewage to the water and waste treatment facility. The final analysis is that the upgrades provide reliable infrastructure for this rural community and it protects the health and safety of its residents.

USDA Rural Development assisted with this project through Water and Waste Loan and Grant funds totally $760,000. The federal funding was leveraged with grants from Indian Health Service (IHS) of $265,000 and Environmental Protection Agency (EPA) of $493,000 bringing the total project cost to $1,518,000.

“As the operator of the systems, I sincerely appreciated the combined efforts and resources,” said Robert Pille, Oglala Sioux Tribe Water and Sewer Director. “We have a fantastic responsibility to provide services to our proud first nation people and this project will improve the living conditions and the health of the Oglala Sioux Tribe. As we move forward, water and sewer will move from crisis management to asset management and have a far better operations and maintenance system going forward. I thank the entire team for this project. The results are already providing a huge benefit to our operations. Wopila Tanka! (Many Thanks!).”

4.3 **Conservation and Forestry**

Stewardship of the land is a sacred principle for many AI/AN villages, and Tribes across the country carry an intimate knowledge of their land and how environmental cycles progress throughout the year. Reflecting the traditional knowledge of America’s first stewards, Native producers, foresters, and environmentalists offer a unique perspective on effective land management practices. USDA recognizes that within each state are a diverse array of land-use and land-conservation practices.

4.3.1 **Conservation on Agricultural Lands**

**Agricultural Conservation Easement Program**

The purposes of the Agricultural Conservation Easement Program (ACEP) are to restore, protect, and enhance wetlands on eligible land; to protect the agricultural viability, and related conservation values of eligible land by limiting non-agricultural uses of that land; and protect grazing uses and related conservation values by restoring and conserving eligible land.

- **Agency:** Natural Resources Conservation Service (NRCS)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** Easement Programs Division

**Agricultural Management Assistance Program**

The Agricultural Management Assistance (AMA) Program promotes the adoption of conservation practices by agricultural producers in order to manage risk and address natural resource issues through natural resources conservation.

- **Agency:** Natural Resources Conservation Service (NRCS)
- **Eligibility:** Tribes; Tribal Citizens
- **Contact:** Financial Assistance Programs Division
Conservation Loan Program
FSA guarantees conservation loans to implement conservation techniques that will conserve natural resources. The loans are available from lenders working with FSA, and funds can be used to implement conservation practices approved by the Natural Resources Conservation Service (NRCS), such as the installation of conservation structures; establishment of forest cover; installation of water conservation measures; establishment or improvement of permanent pastures; and similar practices.

Agency: Farm Service Agency (FSA)
Eligibility: Tribes; Tribal Citizens
Contact: Local FSA County Office https://www.farmers.gov/service-center-locator
Website: https://offices.sc.egov.usda.gov/locator/app

Conservation Stewardship Program
The Conservation Stewardship Program (CSP) encourages producers to address resource concerns in a comprehensive manner by improving, maintaining, and managing existing conservation activities; and undertaking additional conservation activities.

Agency: Natural Resources Conservation Service
Eligibility: Tribes; Tribal Citizens
Contact: Financial Assistance Programs Division

Conservation Reserve Program
The Conservation Reserve Program (CRP) is a voluntary program available to agricultural producers to plant long-term, resource-conserving grasses or trees on environmentally sensitive farmland to improve the quality of water, control soil erosion, and enhance wildlife habitat. In return, FSA provides participants with rental payments and cost-share assistance. Participants can enroll in CRP in two ways. The first is through a competitive process known as CRP General Sign-up. General CRP sign-ups are announced on a periodic basis by the Secretary of Agriculture; they do not occur according to any fixed schedule. The second way to enroll is through CRP Continuous Sign-up, which allows for environmentally sensitive land devoted to certain conservation practices to be enrolled in CRP at any time without competition. Contract duration is between 10 and 15 years.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: http://www.fsa.usda.gov/crp

Emergency Watershed Protection Program
There is a role for tribes and tribal members as sponsor and participants. Policy is listed under Title 390 Part 510 to 515 for both Recovery and Floodplain Easements.

Agency: Natural Resources Conservation Service (NRCS)
Eligibility: Tribes; Tribal Citizens
Contact: Kevin Farmer for Recovery Component kevin.farmer@usda.gov
J eff Williams for Floodplain Easements jeff.williams@usda.gov
Website: https://www.nrcs.usda.gov/wps/portal/nrcs/detail/national/programs/landscape/ewpp/?cid=nrcseprd1381472
https://www.nrcs.usda.gov/wps/portal/nrcs/detail/national/programs/landscape/ewpp/?cid=nrcs143_008216
Environmental Quality Incentives Program

The Environmental Quality Incentives Program (EQIP) provides financial and technical assistance to agricultural producers to help plan and implement conservation practices that address natural resource concerns and for opportunities to improve soil, water, plant, animal, air, and related resources on Tribal land, agricultural land, and non-industrial private forestland.

Agency: Natural Resources Conservation Service (NRCS)
Eligibility: Tribes; Tribal Citizens
Contact: Financial Assistance Programs Division, https://www.farmers.gov/service-center-locator

4.3.2 SHARING THE STORY: INDIAN NATIONS CONSERVATION ALLIANCE SUCCESS STORY

In an effort to introduce youth to the field of natural resources, the https://inca-tcd.org/ Indian Nations Conservation Alliance (INCA) has initiated a pilot youth corps program. The overall goals of the program are to get boots on the ground doing locally important conservation work with the input of cultural leaders and elders, give youth work experience and life skills, and increase awareness and participation in Tribal Conservation Districts. The criteria for corps members are at-risk youth, 18-28 years old, with a background of drugs, alcoholism, abuse, or low to failing grades in the classroom. The first area participating in the pilot program is the https://www.chippewacree-nsn.gov/ Chippewa Cree Tribe located on the Rocky Boy’s Indian Reservation in Montana.

“We wanted to focus on a higher than normal age range and work with students that get left behind,” said Delane Atcitty, INCA’s Executive Director. “The A and B students can get scholarships and have a strong support system, but we still have other students. We want to treat them fair, give them a good wage, and provide a lot of mentoring.”

INCA hired Randall Black Eagle as the District Coordinator for the Chippewa Cree Tribal Conservation District. With guidance from the https://mtcorps.org/ Montana Conservation Corps, Black Eagle met with local high schools and http://www.stonechild.edu Stone Child College to begin finding likely candidates for the Rocky Boy Youth Corps pilot program. Stone Child College also worked with the program to make college credits available to the members. Six crew members were hired; a team leader and five crew members. The crew
began their work by meeting in a classroom to take first aid training, finish their INCA personnel paperwork and discuss what conservation meant to them at that point. Official crew shirts were purchased so each member would be dressed alike, providing a sense of professionalism and belonging.

Black Eagle met with elders and cultural leaders in the community to inform them of the youth corps project and to reserve work concerning the cultural element of the youth corps program. Forty percent of the program work is meant to help the Tribes’ cultural leaders and elders with ceremonial activities. Black Eagle worked with three elders in the community on various cultural activities as well as the yearly Sundance Lodge which is the biggest cultural event in the community.

“The crew helped elders clean the ceremonial grounds this year,” said Atcitty. “Afterward, three elders sat with the crew and discussed what natural resource management was like when they were young. They also talked about picking herbs for medicinal purposes or berries for cultural recipes.”

Black Eagle met with the Chippewa Cree Tribal Business Committee to inform them of the intention to create a youth corps. With input from the Chippewa Cree Natural Resources Department and the Chippewa Cree Forestry Department, the youth corps assisted in collecting data on 38 range units under management of the Natural Resources Department to create conservation plans for those units. The data and plans will also go a long way toward completing the Agricultural Resource Management Plan or long range plan for all agricultural resource uses on the Reservation in partnership with the https://www.bia.gov/bia/ots/division-natural-resources/branch-agriculture-and-rangeland-development Bureau for Indian Affairs. The youth corps crew has completed GPS points on three range units and located four spring developments. The range units are challenging due to the size and rough terrain of each unit. The mapping of the range units is estimated as a three-year project consisting of five major areas; fencing, livestock and wildlife management, agriculture and noxious weeds, spring development and water sources. Crew members will get training in ArcGIS mapping, GPS, working with Federal agencies and partnering, and doing rangeland assessments.

“The crew helped elders clean the ceremonial grounds this year,” said Atcitty. “Afterward, three elders sat with the crew and discussed what natural resource management was like when they were young. They also talked about picking herbs for medicinal purposes or berries for cultural recipes.”

Black Eagle met with the Chippewa Cree Tribal Business Committee to inform them of the intention to create a youth corps. Crew members will get training in ArcGIS mapping, GPS, working with Federal agencies and partnering, and doing rangeland assessments.

“Randall is instrumental to getting this program going locally,” said Atcitty. “They bought GPS/GIS equipment for the crew to do the work and Randall’s education has helped the crew map the infrastructure on those range units.”

The youth corps crew at Rocky Boy began working on June 22 and this year’s program ended August 7. The crew members will have a job application packet with their transcripts, work experience, a letter of reference, and certification of completion when their time in the program is over.

In validation of the crew’s hard work this summer, other Federal agencies that have heard of the youth corps program are already asking for their help on other projects.

INCA refocused the https://www.nacdnet.org/about-nacd/what-we-do/tribal-outreach-partnership/ National Association of Conservation Districts (NACD) funding provided to the Chippewa Cree Tribal Conservation District in 2019 to develop the youth corp
4.3.3 RESOURCES FOR PRIVATE AND TRIBALLY OWNED FOREST LANDS

Collaborative Forest Landscape Restoration Program (CFLRP)
Congress created the CFLR Program in 2009 - and reauthorized it in 2018 - to promote forest health and resiliency and support community well-being through collaborative landscape-scale restoration. The Program has supported 23 CFLRP landscapes across the country ranging in size from 130,000 acres to 2.1 million. CFLRP has several unique features, including a requirement that projects sustain community and collaborative engagement. Project proposals must be developed through a transparent and inclusive collaborative process. Congress can allocate up to $80M annually for CFLRP, with each project receiving no more than $4M annually. These funds can cover no more than 50% of the costs of implementation and monitoring on National Forest System lands. The remaining funds are matched through partnership contributions, goods for services generated through stewardship contracts, and other Forest Service funds available to support the work.

Agency: Forest Service (FS)
Eligibility: Proposals are submitted through National Forest System units in collaboration with diverse partners and stakeholders
Contact: Forest Service CFLRP
Website: https://www.fs.fed.us/restoration/CFLRP/index.shtml

Community Forestry Program
The Community Forest Program is a grant program that authorizes the Forest Service to provide financial assistance to local governments, Tribal governments, and qualified nonprofit entities to establish community forests that provide continuing and accessible community benefits. The Community Forest Program was authorized by the 2008 Farm Bill (Section 8003 of the Food, Conservation, and Energy Act of 2008 (Public Law 110-234)), which amends the Cooperative Forestry Assistance Act of 1978.

Agency: Forest Service (FS)
Eligibility: Tribes; Tribal Organizations
Contact: FS Community Forestry Program
Website: http://www.fs.fed.us/cooperativeforestry/programs/loa/cfp.shtml

Forest Health Protection Program
The Forest Health Protection program protects non-Federal forest and tree resources from damaging forest insects, disease-causing agents, and invasive plants; develops and improves forest health protection technologies; and monitors the health of our Nation’s forests. Technical assistance, formula grants, and project grants are available. For technical assistance on private or Tribal trust land, Indian Tribes can approach the Forest Service directly. The Forest Service can also conduct detection surveys and biological evaluations of forest insect and disease outbreaks on U.S. Department of the Interior and Tribal trust lands.

Agency: Forest Service (FS)
Eligibility: Tribes
Contact: FS Forest Health Protection, http://www.fs.fed.us/foresthealth/
**Forest Stewardship Program**

These project grants help private forest landowners and individuals develop plans for managing non-Federal forest land. Note that projects cannot be conducted on Tribal trust lands, thus only land owned by the Indian Tribe is eligible. The Forest Service offers assistance, primarily through State agencies, to help protect and improve soil, water, range, aesthetics, recreation, timber, and fish and wildlife resources. It requires parties to share 50 percent of the costs. The Program provides assistance to owners of forest land and other lands where good stewardship, including agroforestry applications, will enhance and sustain the long-term productivity of multiple forest resources and produce healthy, resilient forest landscapes.

- **Agency:** Forest Service (FS)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** FS Forest Stewardship Program Website: https://www.fs.fed.us/cooperativeforestry/programs/loa/fsp.shtml

**Healthy Forests Reserve Program**

The Healthy Forests Reserve Program (HFRP) helps landowners restore, enhance, and protect forestland resources on private lands through easements and financial assistance. HFRP aids the recovery of endangered and threatened species under the Endangered Species Act, improves plant and animal biodiversity, and enhances carbon sequestration.

- **Agency:** Natural Resources Conservation Service (NRCS)
- **Eligibility:** Tribes; Tribal Citizens
- **Key Dates:** Announcement of application period as funding is available.
- **Contact:** National Program Manager Website: https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/easements/forests/

**National Urban and Community Forestry Challenge Cost-Share Grant Program**

The Secretary of Agriculture has a congressionally designated advisory council that assists the U.S. Forest Service in establishing the grant categories and recommendations of final proposals for the Forest Service to consider. This is the National Urban and Community Forestry Advisory Council. The National Urban and Community Forestry Advisory Council seeks innovative (new, cutting-edge studies or studies that build upon existing studies) grant proposals for program development, study, and collaboration that will launch some of the new strategies in the (2016-2026) Ten Year Urban Forestry Action Plan.

- **Agency:** Forest Service (FS)
- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** Current-year priority funding topics can be found on the National Urban and Community Advisory Council Website: http://www.fs.fed.us/ucf/nucfac.shtml

**Tribal Forest Protection Act (TFPA)**

The Tribal Forest Protection Act of 2004, PL 108-278 (TFPA) was enacted to provide a means for Federally recognized Tribes in the United States to propose projects that would protect their rights, lands, and resources by reducing threats from wildfire, insects, and disease on Federal lands. Under TFPA, Indian Tribes may submit proposals to the Secretary of Agriculture and the Secretary of the Interior to enter into agreements or contracts to carry out projects on Forest Service or BLM-administered land if their Tribal trust lands or resources are adjacent to the government land. TFPA funding is not limited to a specific appropriation or budget code. There is no funding specifically allocated for TFPA projects. That means that there is no money set aside specifically for TFPA Projects. TFPA projects can be funded by a variety of allocated funds as long as they meet the criteria for those funds.

- **Agency:** Forest Service (FS)
- **Eligibility:** Tribes
- **Contact:** Forest Service TFPA Website: https://www.fs.usda.gov/detail/r5/workingtogether/tribalrelations?cid=stelprdb5351850
**Wood Innovations Grants**

The Wood Innovations Grants funding supports traditional wood utilization projects, expands wood energy markets, and promotes using wood as a construction material in commercial buildings. These grants and cooperative agreements support the Agricultural Act of 2014 (Pub. L. 113–79), Rural Revitalization Technologies (7 U.S.C. 6601), and the nationwide challenge of disposing of hazardous fuels and other wood residues from the National Forest System and other forest lands in a manner that supports wood energy and wood products markets.

- **Eligibility:** Tribes; Tribal Organizations
- **Contact:** Forest Service Wood Innovation Grants
- **Website:** [https://www.fs.fed.us/science-technology/energy-forest-products/wood-innovations-grants](https://www.fs.fed.us/science-technology/energy-forest-products/wood-innovations-grants)

### 4.3.4 SHARING THE STORY: TRADITIONAL CHEROKEE LANDS PLACED IN CONSERVATION EASEMENT

**By Sandy Marin, Forest Service Resource Assistant**

The Eastern Band of Cherokee Indians (EBCI) has successfully competed for a second Forest Service Community Forest Program grant to continue enhancing the Hall Mountain Community Forest in Macon County, North Carolina. Hall Mountain is a culturally and historically significant EBCI landscape that was once threatened by developers. In 2012, EBCI, in collaboration with the Little Tennessee Land Trust, earned their first Community Forest Program grant to incorporate a public hiking trail highlighting the natural resources used and managed by the Tribe. Now, the Tribe is ready to enter phase 2 of enhancing the forest by expanding the acreage and building an eagle aviary on the property.

The natural resources of Hall Mountain have been utilized by the Tribe since time immemorial and the significant history here is evident in the flora of the forest. There is a spiritually significant site in the viewshed of Hall Mountain that Tommy Cabe, Forest Resource Specialist for EBCI, describes as a place that holds not only spiritual importance, but also a rich history of trade. Cabe described the site as “a corridor of world trade where Native Americans, the English, French, and Spanish would meet and trade seeds, furs, jewelry, minerals, and more. Today we still see very high oak diversity and an unusually low elevation stand of table mountain pine on Hall Mountain, this is evidence of the rich seed exchange we once had here and just one of the many legacies of our culture that we are going to conserve by managing Hall Mountain.” Cabe goes on to describe how “these pieces of property really take us back in time, reconnect us and give us a different perspective on both the truths and untruths we have been taught.”

The Forest Service Community Forest Program is mutually beneficial for both the agency and local communities who have intimate knowledge of the land. Cabe appreciates the Forest Service investment in shared stewardship, saying that “as stewards of this land, EBCI can demonstrate the incredible cultural and historical value of this land, and share it both within and outside of our community. I hope that this relationship with the Forest Service can be a demonstration to Tribes and other Federal agencies of the value of our knowledge. We have the longest living connection to this land and that brings great value to the management of our nation’s natural resources.”
4.3.5 WATERSHED AND WATER PROTECTION RESOURCES

Grassroots Source Water Protection Program
The Grassroots Source Water Protection Program (GSWPP) is a joint effort between FSA and the nonprofit National Rural Water Association (NRWA), designed to help prevent source water pollution in states through voluntary practices installed by producers and other landowners at the local level. GSWPP relies on the onsite technical assistance capabilities of each state’s rural water association in those states that operate a source water protection program. These associations deliver assistance in developing source water protection plans within watersheds with the goal of preventing contamination of drinking water supplies.

Agency: Farm Service Agency (FSA)
Eligibility: Tribes; Tribal Organizations
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/conservation-programs/source-water-protection/

Watershed and Flood Prevention Operations Program (WFPOP)
The WFPOP includes the Flood Prevention Operations Program authorized by the Flood Control Act of 1944 and the provisions of the Watershed Protection and Flood Prevention Act of 1954. The Flood Control Act originally authorizes the Secretary of Agriculture to install watershed improvement measures in 11 watersheds, also known as pilot watersheds, to reduce flood, sedimentation, and erosion damage; improve the conservation, development, utilization, and disposal of water; and advance the conservation and proper utilization of land. The Watershed Protection and Flood Prevention Act provides for cooperation between the Federal government and the States and their political subdivisions in a program to prevent erosion, floodwater, and sediment damage; to further the conservation, development, utilization, and disposal of water; and to further the conservation and proper utilization of land in authorized watersheds.

Agency: Natural Resources Conservation Service (NRCS)
Eligibility: Tribes
Contact: Watershed Programs Team Leader https://www.farmers.gov/service-center-locator
Website: https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/landscape/wfpo/
4.3.6 REGIONAL PARTNERSHIPS

Conservation Reserve Enhancement Program
The Conservation Reserve Enhancement Program (CREP) is a part of the Conservation Reserve Program whereby non-Federal partners and resources are coupled with Federal resources to address high-priority conservation concerns within a State. CREP is a voluntary program that helps agricultural producers protect environmentally sensitive land, decrease erosion, restore wildlife habitat, and safeguard ground and surface water. CREP is a partnership between state governments and the Federal Government. Participation is voluntary, and the contract period is typically 10–15 years.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: https://www.fsa.usda.gov/programs-and-services/conservation-programs/conservation-reserve-enhancement/index

Conservation Reserve Program - State Acres for Wildlife Enhancement
State Acres for Wildlife Enhancement (SAFE) is designed to address state and regional high-priority wildlife objectives. Producers within a SAFE area can submit offers to voluntarily enroll acres in Conservation Reserve Program (CRP) contracts for 10-15 years. In exchange, producers receive annual rental payments, incentives, and cost-share assistance to establish, improve, connect, or create higher-quality wildlife habitat.

Agency: Farm Service Agency (FSA)
Eligibility: Tribal Citizens
Contact: Local FSA County Office, https://www.farmers.gov/service-center-locator
Website: http://www.fsa.usda.gov/crp

Regional Conservation Partnership Program
The Regional Conservation Partnership Program (RCPP) promotes coordination between NRCS and its partners to deliver conservation assistance to producers and landowners. NRCS provides assistance to producers through partnership agreements and through program contracts or easement agreements.

Agency: Natural Resources Conservation Service (NRCS)
Eligibility: Tribes, Tribal Citizens, Tribal Organizations

4.4 RESEARCH, EDUCATION, and EXTENSION
USDA provides substantial funding and programs for the land-grant colleges and universities throughout the United States. In addition to programs supporting the 1994 Tribal Colleges and Universities, USDA offers a number of programs supporting other land-grant institutions working with Tribal Colleges and Universities, as well as programs that support Tribal students and young professionals.
4.4.1 General Research and Education Resources

Some of these resources even assist with providing social and economic indicators commonly referenced through research or funding applications. The Economic Research Service (ERS), for example, helps anticipate trends and emerging issues in agriculture, food, the environment, and rural America through objective, high-quality economic research. ERS released *Measuring Access to Healthful, Affordable Food in American Indian and Alaska Native Tribal Areas* in December 2014. The study compares distances to outlets for obtaining healthy, affordable food in Tribal areas to those for the general U.S. population, with implications for improving the health of Tribal populations.

Addressing food insecurity and food deserts often relies on an understanding of where food is grown. The National Agricultural Statistics Service (NASS) 2012 Census of Agriculture reported at least 58,475 self-identified Native producers were helping provide food for their communities and the country. While the 2012 Census of Agriculture Highlights provides a snapshot for Native producers, these numbers consistently impact USDA decision making processes and how the country measures its food supply. NASS surveys are confidential, with the names, addresses, and other personal identifiers protected by NASS with the force of law. The next Census of Agriculture will be released in 2017, and producers interested in being counted should contact their regional NASS office at https://www.nass.usda.gov/Statistics_by_State/RFO/.

Additionally, the National Agricultural Library offers a searchable listing of additional resources, including those provided by other Federal agencies, and is viewable at www.nal.usda.gov.

4.4.2 1994 LAND-GRANT TRIBAL COLLEGES

The 1994 land-grant Tribal Colleges were established through the Equity in Educational Land-Grant Status Act of 1994. The department has three offices that specifically work to deliver programs and support to these land-grant institutions: the 1994 Tribal Land-Grant Colleges and Universities Program Office, the National Institute of Food and Agriculture (NIFA), and the Rural Development Community Facilities Program office.

4.4.3 1994 TRIBAL LAND-GRANT COLLEGES AND UNIVERSITIES PROGRAM OFFICE

The Office of Partnerships and Public Engagement (OPPE) 1994 Tribal Land-Grant Colleges and Universities Program’s (1994 TLGCU Program) mission is to develop 1994 TLGCU Program capacities to benefit rural Tribal economies and to strengthen the United States’ food security. The authorities for this office come from the Equity in Educational Land-Grant Status Act of 1994 and were reauthorized most recently through the Agriculture Act of 2014. Among Congress’ requirements is that “The Secretary shall develop and implement a formal memorandum of agreement with the 1994 TLGCU to establish programs to ensure that Tribally controlled colleges and Native American communities equitably participate in Department of Agriculture employment, programs, services, and resources.”

1994 TLGCU Program has four major programmatic areas:

- The USDA and the American Indian Higher Education Consortium (AIHEC) Leadership Group;
- The Tribal Land-Grant Liaison Program;
- The USDA Tribal Scholars and Internship Program; and
- The Terra Preta do Indio Tribal Fellowship (for faculty and staff)

4.4.4 USDA RESEARCH AND EDUCATION PROGRAMS FOR TRIBAL COLLEGES

1994 Tribal Colleges Education Equity Grants Program (TCEG)
The 1994 Land-Grants use Equity to support faculty who develop classes and degree programs that teach science and math to Native Americans. The programs focus on agriculture, natural resources and human sciences. The faculty strive to graduate students who can achieve their life goals. Since many 1994 Land-Grants are two-year schools, some students aspire to advanced degrees. Other students seek training to begin a vocational career in agriculture. Still other students want to earn certifications just to improve their daily lives. Faculty have used Equity funding to help build laboratories, conduct remedial courses, create new degree programs in forestry and provide students stipends so they can complete their education. The goal is to graduate empowered students who can embrace their future with new skills and knowledge.

Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Colleges & Universities (only Land-Grant institutions)
Website: https://nifa.usda.gov/program/tribal-equity-grants-program

1994 Tribal Colleges Extension Services Program (TCEP)
The Tribal Colleges Extension Services Program provides funding to increase Extension program capacity at 1994 Land-Grant Institutions; and address special needs, take advantage of important opportunities, and/or demonstrate long-term sustained benefits of Extension projects at 1994 Land-Grant Institutions. Awards will be made to support one or more of the following Extension base program areas: (1) Agriculture; Community Resources and Economic Development; (2) Family Development and Resource Management; (3) 4-H and Youth Development; (4) Leadership and Volunteer Development; (5) Natural Resources and Environmental Management; and (6) Nutrition, Diet and Health.

Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Colleges & Universities (only Land-Grant institutions)
Website: https://nifa.usda.gov/funding-opportunity/tribal-colleges-extension-services-program-capacity-tcep
1994 Tribal Colleges Research Grants Program (TCRGP)
The 1994 Land-Grants often serve as the primary institution of scientific inquiry, knowledge and learning for reservation communities. This funding allows them to address the questions that matter to these communities such as protecting reservation forests or monitoring water quality. Projects may help a tribe improve bison herd productivity, discover whether traditional plants can play a role in managing diabetes or control invasive species. The grant’s partnership requirement ensures that other Federal and Land-Grant research entities can share resources and knowledge with these, the newest Land-Grants. In addition, this grant places an emphasis on training students in science. There are three types of funding available through this grant. New Discovery supports sophisticated scientific inquiry that could be published in a peer-reviewed journal. Capacity level grants allow the 1994 Land-Grant to respond directly to a concern of their reservation. Student Inquiry funding allows a tribal college student to build a research project and present the results under the guidance of a 1994 Land-Grant faculty member. The visiting scholar option allows the Federal or Land-Grant partner to spend a sabbatical at the 1994 Land-Grant teach or mentoring to build the tribal college’s research capacity. 1994 Land-Grant faculty may also receive a grant to study optimal ways to teach Native American students in sciences as they relate to health, conservation and agriculture. In addition, there is a special funding initiative that allows these school to develop scientific capacity throughout the entire 1994 Land-Grant system.

Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Colleges & Universities (only Land-Grant institutions)
Website: https://nifa.usda.gov/program/tribal-college-research-grant-program

Alaska Native-Serving and Native Hawaiian-Serving Institutions Education Competitive Grants Program - ANNH
The purpose of this program is to promote and strengthen the ability of Alaska Native-Serving Institutions and Native Hawaiian-Serving Institutions to carry out education, applied research, and related community development programs. NIFA intends this program to address educational needs, as determined by each institution, within a broadly defined arena of food and agricultural sciences-related disciplines. Priority will be given to those projects that enhance educational equity for underrepresented students; strengthen institutional educational capacities; prepare students for careers related to the food, agricultural, and natural resource systems of the United States; and maximize the development and use of resources to improve food and agricultural sciences teaching programs.

Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Colleges & Universities in Alaska
Website: https://nifa.usda.gov/funding-opportunity/alaska-native-serving-and-native-hawaiian-serving-institutions-education

Beginning Farmer & Rancher Development Program
This program is for beginning farmer education for adult and young audiences to support the delivery of education, mentoring, and technical assistance programs to help farmers and ranchers in the United States with entering, establishing, building, and managing successful farm enterprises.

Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Website: https://nifa.usda.gov/funding-opportunity/beginning-farmer-and-rancher-development-program-bfrdp
4.4.5 SHARING THE STORY: USDA HELPS TRIBAL CONSERVATION DISTRICT SUPPORT FOOD SECURITY FOR ALASKA NATIVES

Forest Service Wood Innovation Grant

Imagine paying four times the national average to heat your home. Imagine having to rely on a single source of food that could easily be impacted by ferry service. Imagine limited options in a rural setting. These limitations are being addressed through the community efforts of the Hoonah Indian Association (HIA). HIA has been awarded a USDA Forest Service Wood Innovations grant to design a biomass district heating loop system to increase energy independence in the small Alaska town. The design will seek to be fueled entirely by local and sustainably sourced biomass, the new heating system will have the capacity to power eight existing buildings with constructions plans for a new biomass powered greenhouse and cultural center in the works. The Wood Innovations Grant program funds inventive projects that support rural communities by creating jobs, revitalizing economies, and supporting sustainable forest land management.

“Identifying sustainable fuel sources before the project starts is a crucial component of long-term success because it is one of the biggest hurdles. It’s great to see that HIA is already planning for long term sustainability” says Dr. Priscilla Morris, Forest Service Wood Biomass & Forest Stewardship Coordinator.

Building on a readily available fuel source is a first step that will now allow the Hoonah Native Forest Partnership to participate in the design process and help determine a path forward. Current fuel source options include manufacturing residuals from timber production and excess biomass from forest thinning that would otherwise go to waste. Harvesting this product for fuel will not only help provide the community with power; it will also promote forest health and decrease wildfire risk.

The community benefit of this system goes far beyond energy production. The biomass system and planned greenhouse could model efforts by the Southeast Island School District on Prince of Wales (POW) Island and become key components of the curriculum in Hoonah schools. On POW, elementary and middle schoolers will learn how to grow and market the food in the greenhouse, while high schoolers will go on to learn about the mechanics behind the biomass heating loop system. Ian Johnson, the HIA Environmental Coordinator says “I cannot understate the impact of a project like this in a small community like Hoonah. Our collective efforts that will teach our young people how to remain self-sufficient will go a long way to our community well-being.” The ability to grow food year-round in the planned greenhouse increases community access to healthy, local, and affordable food options. In a community where food supply can be uncertain at times due to a destabilized ferry delivery system, being able to grow food locally all year long is a huge leap in food sovereignty.

The Wood Innovation Grant is crucial is pivotal to improving Hoonah’s community resilience by promoting energy independence, food sovereignty, and economic stability.

Community Facilities Tribal College Initiative Grants

This program provides funding to 1994 Land Grant Institutions (Tribal Colleges) to make capital improvements to their educational facilities and to purchase equipment.

Agency: Rural Developement (RD)
Eligibility: Tribal Colleges & Universities (only Land-Grant institutions)
Website: http://www.rd.usda.gov/programs-services/tribal-college-initiative-grants
Critical Agricultural Research and Extension - CARE
Despite prior investments in basic and applied research, critical problems continue to impede the efficient production and protection of agriculturally important plants and animals. These problems may be local, regional, or national, and may call for work focused on one or more scientific disciplines. However, all need immediate attention to meet producer needs. Finding and implementing solutions to these critical problems requires partnership and close coordination among researchers, extension experts, and producers. Funded projects will quickly yield solutions or practices that can be rapidly implemented by producers.
Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Includes, but is not limited to Non-profit and For-profit business entities; Land-Grant Universities, including 1994 Institutions; and Individuals
Contact: https://nifa.usda.gov/funding-opportunity/afri-foundational-critical-agricultural-research-and-extension-care

Food Insecurity Nutrition Incentive Grant Program (FINI)
To support projects to increase the purchase of fruits and vegetables among low-income consumers participating in the Supplemental Nutrition Assistance Program (SNAP) by providing incentives at the point of purchase. The program will test strategies that could contribute to our understanding of how best to increase the purchase of fruits and vegetables by SNAP participants that would inform future efforts, and develop effective and efficient benefit redemption technologies.
Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribes; Tribal Organizations
Contact: https://nifa.usda.gov/funding-opportunity/food-insecurity-nutrition-incentive-fini-grant-program

Food Agriculture, Natural Resources and Human Sciences Education and Literacy Initiative - REEU (undergraduate Research)
The Agriculture and Food Research Initiative (AFRI) Food, Agriculture, Natural Resources, and Human Sciences Education and Literacy Initiative (ELI) provides fellowships to undergraduate, predoctoral, and postdoctoral students in the agricultural sciences.
Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribes; Tribal Organizations; Tribal Colleges & Universities
Website: https://nifa.usda.gov/funding-opportunity/agriculture-and-food-research-initiative-food-agriculture-natural-resources-and

Higher Education Challenge
Projects supported by the Higher Education Challenge Grants Program will: (1) address a State, regional, national, or international educational need; (2) involve a creative or non-traditional approach toward addressing that need that can serve as a model to others; (3) encourage and facilitate better working relationships in the university science and education community, as well as between universities and the private sector, to enhance program quality and supplement available resources; and (4) result in benefits that will likely transcend the project duration and USDA support.
Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Organizations; Tribal Colleges & Universities
Key Dates: Application dates vary.
Website: https://nifa.usda.gov/funding-opportunity/higher-education-challenge-hec-grants-program

Multicultural Scholars Program - MSP
The purpose of this competitive undergraduate scholarship grant program is to increase the multicultural diversity of the food and agricultural scientific and professional workforce, and advance the educational achievement of all Americans by providing competitive grants to colleges and universities.
Agency: National Institute of Food and Agriculture (NIFA)
Eligibility: Tribal Colleges & Universities
Website: https://nifa.usda.gov/funding-opportunity/higher-education-multicultural-scholars-program-msp
**Rural Health and Safety - RHSE**

The RHSE program proposals are expected to be community-based, outreach education programs, such as those conducted through Human Science extension outreach, that provides individuals and families with the following:

- Information as to the value of good health at any age;
- Information to increase individual or family’s motivation to take more responsibility for their own health;
- Information regarding rural environmental health issues that directly impact on human health;
- Information about and access to health promotion and educational activities; and
- Training for volunteers and health services providers concerning health promotion and health care services for individuals and families in cooperation with State, local, and community partners.

**Agency:** National Institute of Food and Agriculture (NIFA)

**Eligibility:** Tribal Colleges & Universities (only Land-Grant institutions)

**Scientific Cooperation Exchange Program (SCEP)**

SCEP supports collaborative relationships between teams of scientific and technical experts from the United States and the People’s Republic of China. Approximately 16 SCEP teams (each team is comprised of six to eight representatives from the United States and six to eight representatives from China).

**Agency:** Foreign Agricultural Service (FAS)

**Eligibility:** Tribal Organizations; Tribal Colleges & Universities

Trade and Scientific Exchanges Division, SCEPProposals@usda.gov, (202) 720-0858

**Website:** [http://www.fas.usda.gov/programs/scientific-cooperation-exchange-program](http://www.fas.usda.gov/programs/scientific-cooperation-exchange-program)
Scientific Cooperation Research Program (SCRP)
SCRP pairs U.S. research institutions with at least one counterpart overseas to conduct a joint research endeavor that supports food security needs of eligible countries. There are approximately six awards of up to $40,000 each.

Agency: Foreign Agricultural Service (FAS)
Eligibility: Tribal Organizations; Tribal Colleges & Universities
Contact: Trade and Scientific Exchanges Division, SCRPProposals@usda.gov, (202) 690-1983

5.1 USDA Organization Chart

USDA Organization Chart

5.2 USDA AGENCIES

The U.S. Department of Agriculture (USDA) works to support the American agricultural economy to strengthen tribal and rural communities; to protect and conserve our natural resources; and to provide a safe, sufficient, and nutritious food supply for the American people. The Department’s wide range of programs and responsibilities touches the lives of every American every day.

Here you will find information about some of USDA’s agencies and offices, their missions, responsibilities, and services they provide, as well as committees and boards, and e-mail lists you can sign up for.
5.2.1 AGRICULTURAL MARKETING SERVICE
The Agricultural Marketing Service (AMS) administers programs that facilitate efficient, fair marketing of U.S. agricultural products, including food, fiber, and specialty crops. AMS identifies and promotes the development of marketing opportunities for the agricultural community by conducting and supporting research and providing information on farmer direct marketing activities. AMS programs promote a strategic marketing perspective that adapts product and marketing practices and technologies to the issues of today and the challenges of tomorrow.
AMS conducts quarterly consultation calls on topics ranging from grants related to agricultural marketing, local food, and food HUBS; free webinars; updates topics such as on livestock and procurement efforts; as well as, information on becoming an approved vendor for food distribution.

Contact: (202) 720-8998
Website: www.ams.usda.gov
E-mail: PA@usda.gov In the subject line type: Add to Tribal Consultation e-mail

5.2.2 AGRICULTURAL RESEARCH SERVICE
The Agricultural Research Service (ARS) is the principal in-house research agency of USDA. ARS is charged with extending the Nation’s scientific knowledge through the administration of its national programs, as well as by conducting research projects in animal and crop production and protection, human nutrition, food safety, bioenergy, the environment, and other topics that affect the American people on a daily basis.

Contact: (301) 504-1636
Website: www.ars.usda.gov

5.2.3 ANIMAL AND PLANT HEALTH INSPECTION SERVICE
The Animal and Plant Health Inspection Service (APHIS) makes a significant contribution to the value of the Nation’s food supply by protecting U.S. agricultural resources from pests and diseases, managing wildlife damage, regulating genetically engineered organisms, and administering the Animal Welfare Act. APHIS programs integrate plant and animal disease surveillance, epidemiology, emergency response, and information delivery to ensure the marketability of U.S. agricultural products. APHIS also works to resolve and manage trade issues related to animal or plant health.

Contact: (844) 820-2234 https://www.aphis.usda.gov/aphis/banner/contactus;

Contact Biotechnology Regulatory Services https://www.aphis.usda.gov/aphis/ourfocus/biotechnology/sa_contact_brs/ct_contact_brs

5.2.4 CENTER FOR NUTRITION POLICY AND PROMOTION
The Center for Nutrition Policy and Promotion (CNPP) establishes Federal nutrition policy through the Dietary Guidelines for Americans, sets priorities for nutrition research, sets nutrition standards, and disseminates dietary guidance. It maintains the MyPlate food guidance system.

Contact: (703) 305-7600
Website: www.cnpp.usda.gov
5.2.5  ECONOMIC RESEARCH SERVICE
The Economic Research Service (ERS) is a primary source of economic information and research in USDA. ERS conducts its research program to inform public and private decision making on economic and policy issues involving food, farming, natural resources, and rural development. ERS’ economists and social scientists conduct research, analyze food and commodity markets, produce policy studies, and develop economic and statistical indicators. ERS staff disseminates economic information and research results through an array of outlets.
Contact:  (202) 694-5000
Website:  www.ers.usda.gov

5.2.6  FARM SERVICE AGENCY
The Farm Service Agency (FSA) ensures the well-being of American agriculture, the environment, and the American public through the following: (1) the administration of farm commodity programs; (2) farm ownership, operating, and emergency loans; (3) conservation and environmental programs; (4) emergency and disaster assistance; and (5) domestic and international food assistance. FSA programs are delivered through an extensive network of field offices in over 2,200 USDA County Service Centers and 51 State Offices. To find the FSA office nearest to you see
Website:  https://offices.sc.egov.usda.gov/locator/app. For additional information on FSA see https://www.fsa.usda.gov/

5.2.7  FOOD AND NUTRITION SERVICE
The Food and Nutrition Service (FNS) administers the USDA nutrition assistance programs that provide children and low-income people access to food, a healthful diet, and nutrition education. Programs include the Supplemental Nutrition Assistance Program (SNAP), the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), the National School Lunch Program (NSLP), School Lunch and Breakfast (SBP), and the Food Distribution Program on Indian Reservations (FDPIR).
Contact:  (703) 305-2062
Website:  www.fns.usda.gov,
5.2.8 FOOD SAFETY AND INSPECTION SERVICE

Touching the lives of millions of people every day, the Food Safety and Inspection Service (FSIS) is the public health agency responsible for ensuring that the Nation’s commercial supply of meat, poultry, and processed egg products is safe, wholesome, and correctly labeled and packaged. FSIS also manages the USDA Meat and Poultry Hotline, which provides consumers with answers to their food safety questions.

Contact: (202) 720-9113
Website: https://www.fsis.usda.gov/wps/portal/fsis/home

5.2.9 FOREIGN AGRICULTURAL SERVICE

The Foreign Agricultural Service (FAS) works to improve foreign market access for U.S. products and administers market development and export financing programs. FAS helps U.S. exporters develop and maintain markets overseas for U.S. food and agricultural products. FAS helps developing countries improve their agricultural systems and build their trade capacity.

Contact: (202) 720-7115
Website: www.fas.usda.gov

5.2.10 FOREST SERVICE

The Forest Service (FS) manages 193 million acres of public lands in 155 national forests and 20 grasslands and is the largest forestry research operation in the world. The FS provides technical and financial assistance to help rural and urban citizens, including private landowners, care for forest, watersheds, and rangelands in their communities.

Contact: (202) 205-1680
Website: FS Information: www.fs.fed.us
Regional Info.: http://www.fs.fed.us/organization
5.2.11 GRAIN INSPECTION, PACKERS AND STOCKYARDS ADMINISTRATION
The Grain Inspection, Packers and Stockyards Administration (GIPSA) facilitates the marketing of livestock, poultry, meat, cereals, oilseeds, and related agricultural products. The agency promotes fair and competitive trading practices for the overall benefit of consumers and American agriculture.

Contact: (202) 720-0219
Website: https://www.gipsa.usda.gov

5.2.12 NATIONAL AGRICULTURAL STATISTICS SERVICE
The National Agricultural Statistics Service (NASS) is the official Federal statistical agency for agriculture. The agency serves U.S. agricultural and rural communities with accurate, timely, and useful statistical products and services that are vital information to monitor the ever-changing agricultural sector and carry out farm policy. Every 5 years, NASS conducts the Census of Agriculture, which is the only source of uniform, comprehensive agricultural data for every county in the United States. The Census of Agriculture provides detailed data on American Indian/Alaska Native producers and reservation-level data for farms on American Indian reservations.

Contact: 1 (800) 727-9540
Website: www.nass.usda.gov

5.2.13 NATIONAL INSTITUTE OF FOOD AND AGRICULTURE
The National Institute of Food and Agriculture (NIFA) impacts the lives of millions of Americans each day by supporting exemplary research, education, and extension that address many challenges facing our Nation through collaboration with historically Black colleges and universities, Hispanic-serving institutions, and Tribal colleges. You are connected to NIFA through your nearest Extension office, which provides answers to concerns through educational materials and Web-based information.

Contact: (202) 720-7441
Website: www.nifa.usda.gov

5.2.14 NATURAL RESOURCES CONSERVATION SERVICE
The Natural Resources Conservation Service (NRCS) helps people help the land through scientifically based, locally led voluntary conservation efforts and improve natural resources on private lands. NRCS work results in productive lands and a healthy environment through reduced soil erosion; water and air quality; energy conservation; restored woodlands and wetlands; enhanced fish and wildlife habitat; and reduced upstream flooding.

Contact: (202) 720-3210
Website: www.nrcs.usda.gov, Use the USDA Service Center Locator to find the office nearest to you: http://offices.sc.egov.usda.gov/locator/app

5.2.15 RISK MANAGEMENT AGENCY
The Risk Management Agency (RMA) administers the Federal Crop Insurance Corporation (FCIC) programs and promotes national welfare by improving the economic stability of agriculture through a secure system of crop insurance and risk management tools. Through a network of public- and private-sector partners, RMA creates crop insurance and risk management products, provides risk management education and outreach, and ensures program accessibility and integrity.

Contact: (202) 690-2803
Website: www.rma.usda.gov
5.2.16  RURAL DEVELOPMENT
USDA Rural Development (RD) is composed of three agencies: Rural Business-Cooperative programs, Rural Housing and Community Facilities programs, and Rural Utilities programs. RD offers rural communities a broad array of financial, technical, and educational resources in order to establish and grow rural businesses and cooperatives. RD provides financing for single family homes and multi-family housing developments, and essential community facilities. RD helps to finance the development of electric, telephone, telecommunication, and water and wastewater infrastructures to create affordable utilities.

Contact:  1 (800) 670-6553

5.3  USDA Departmental Staff Offices
(Partial list of staff offices. Only offices with direct impact to Tribes, TCUs, businesses, or organizations are listed.)

5.3.1  OFFICE OF THE SECRETARY (OSEC)
Assisted by the Deputy Secretary, the Subcabinet, and members of their immediate staffs, directs and coordinates the work of the Department. This involves providing policy direction for all areas of the Department and maintaining liaisons with the Executive Office of the President, Members of Congress, and the public.

5.3.2  OFFICE OF TRIBAL RELATIONS (OTR)
Intergovernmental - Leads the Department’s vision to support and enhance government-to-government relations between USDA and Federally recognized Tribal governments;
  • Advisor to the Secretary - Provides counsel to the Secretary on policies related to or impacting Indian Tribes;
  • Facilitator – Enables tribes, tribal governments, tribal organizations and individuals to access programs and services within USDA and throughout Federal agencies;
  • Catalyst – Streamlines processes and develop opportunities to address policy and program complexities, programs and services that support the needs of American Indians and Alaska Natives; and,
  • Consultation, Coordination and Collaboration Lead - Directs Department for the implementation of Executive Order 13175, “Consultation and Coordination with Indian Tribal Governments,” including the continual refinement of the consultation process to ensure robust partnerships that will respect and preserve Tribal sovereignty.

The information provided includes the open grant portfolio that USDA offers at any point; USDA news; upcoming Tribal consultations; and other event listings.
To receive USDA OTR e-mails. Send an e-mail to tribal.relations@usda.gov
In the subject line type: Subscribe to OTR e-mail list.

5.3.3  NATIONAL APPEALS DIVISION
The National Appeals Division (NAD) is responsible for providing hearings for program participants who receive adverse decisions from the Farm Service Agency, Risk Management Agency, Natural Resources Conservation Service, and Rural Development’s Rural Business-Cooperative Development Service, Rural Housing Service, and Rural Utilities Service. Filing an appeal provides an opportunity to present the dispute, either face to face or on the telephone, to a NAD Hearing Officer.

Contact:  1 (877) 487-3262
Website:  https://www.nad.usda.gov/
5.3.4 OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS (OASCR)

OASCR provides policy guidance, leadership, coordination, and training, and complaint adjudication and processing for the Department and its agencies. OASCR’s mission is to facilitate the fair and equitable treatment of USDA customers and employees and ensure the delivery and enforcement of civil rights programs and activities. Through its efforts, OASCR strives to: (1) foster a positive civil rights climate at USDA; (2) process Equal Employment Opportunity (EEO) and program complaints in a timely, efficient, and cost-effective manner; (3) reduce and prevent EEO and program complaints through training and guidance; and (4) offer alternative dispute resolution services.

Contact: (202) 720-3808
Website: https://www.ascr.usda.gov/
5.3.5  OFFICE OF PARTNERSHIPS AND PUBLIC ENGAGEMENT (OPPE)

The Office of Partnerships and Public Engagement (OPPE) was recognized in statute in the Agricultural Improvement Act of 2018 (2018 Farm Bill). Section 12406 of the 2018 Farm changed the name of the OAO to OPPE, and the duties previously delegated to OAO are now delegated to OPPE to rapidly expand customer engagement, maximize efficiency, and improve agency collaboration. The office was delegated the oversight of the Office of Advocacy and Outreach (OAO), the Office of Tribal Relations, the Military Veterans Agricultural Liaison, the Center for Faith-Based and Neighborhood Partnerships, the Women in Agriculture initiative, and the USDA Youth Programs and Agricultural Youth Organization Coordinator.

OPPE works to improve community access and equitable participation through the following program areas, partnerships, and initiatives:

- Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers
- Outreach and Assistance for Veteran Farmers and Ranchers
- Faith-Based and Neighborhood Partnerships
- 1890 Historically Black Land-Grant Colleges and Universities
- 1994 Tribal Land-Grant Colleges and Universities
- Hispanic-Serving Institutions
- Outreach and Assistance to Asian-American And Pacific Islander Producers
- Military Veterans Agricultural Liaison
- Agricultural Youth Organization Coordinator
- Farmworker Coordinator
- The Women in Agriculture Initiative
- The Minority Farmer Advisory Committee
- The Beginning Farmers and Ranchers Advisory Committee

Website:  https://www.usda.gov/partnerships

5.3.7 USDA OFFICE OF SMALL AND DISADVANTAGED BUSINESS UTILIZATION (OSDBU)
OSDBU is tasked with responsibility for fostering the use of small disadvantaged businesses as Federal contractors. OSDBU provides Department-wide leadership in the implementation and execution of programs under Sections 8 and 15 of the Small Business Act, as amended. OSDBU’s goal is to provide as much information, guidance, and technical assistance as possible in order to assist the small business community in increasing its competitiveness through increased participation in USDA’s procurement and program activities.

5.3.7.1 Federal Contract Opportunities for Small and Small Disadvantaged Businesses
Federal Small Business Set-aside Programs permit competition on certain solicitations among small businesses only, including the Section 8(A) Program, Service-Disabled Veteran Owned Small Business Program, Small Disadvantaged Business Program, and others.
  Contact:  (202) 720-7117
  Website:  https://www.dm.usda.gov/procurement/business/smallbiz.htm
5.3.7.2  Selling Agricultural Products to USDA

USDA purchases a variety of 100% domestically produced and processed commodity food products. These purchases support American agriculture by providing an outlet for surplus products and encouraging consumption of domestically produced foods. The wholesome, high-quality products purchased by USDA—collectively called USDA Foods—are delivered to tribal distribution organizations, schools, food banks, and households in communities across the country, and are a vital component of our Nation’s food safety net.

**Successful USDA Foods purchasing is a coordinated effort.** The Agricultural Marketing Service (AMS) develops products and purchase program technical requirements, manages the Web-Based Supply Chain Management System (WBSCM), and conducts the procurements (solicitations, awards, and contract management) in accordance with Federal regulations and USDA policy. The Food and Nutrition Service (FNS) manages the food and nutrition assistance programs, including the Food Distribution Program on Indian Reservations (FDPIR), National School Lunch Program (NSLP), and The Emergency Food Assistance Program (TEFAP), generating demand (orders) from qualified recipients for various USDA Foods and coordinating with AMS on the purchase planning and scheduling.

AMS issues solicitations and makes purchases for over 200 different USDA Foods on an ongoing basis. Approved USDA Vendors are invited to submit offers via WBSCM. We also host an annual meeting for contractors and suppliers.

For detailed information on the process and becoming an approved USDA vendor, please visit: [https://www.ams.usda.gov/selling-food](https://www.ams.usda.gov/selling-food)

Small business vendors who are interested in selling food to USDA should contact the New Vendor/Small Business Coordinator for assistance: Commodity Procurement Staff, Telephone: (202) 720-4237 or NewVendor@usda.gov
5.4 Other

5.4.1 Forest Service Working with American Indians and Native Alaskans

Tribal relations in the USDA Forest Service crosscuts all Forest Service deputy and mission areas. Every day, and in many ways, what we do in service to the Forest Service mission touches the peoples of American Indian and Alaska Native Tribal nations (Tribes) and the resources, natural and cultural, which are important to them. It is the responsibility of every Forest Service employee to deliver the Forest Service’s trust responsibilities to Tribes. We strive to be good neighbors, and we provide excellent customer service.

The USDA Tribal Relations Strategic Plan Fiscal Year 2019-2022 supports the Forest Service’s national priorities and aligns with the USDA Secretary’s Strategic Goals. Further, the Tribal Relations Strategic Plan’s outcome-oriented goals match the goals in the USDA Forest Service Strategic Plan: FY 2015–2020 (Sustain Our Nation’s Forests and Grasslands, Deliver Benefits to the Public, Apply Knowledge Globally, and Excel as a High-Performing Agency). Collectively, these priorities and goals will guide the essential work we must perform to respond to the needs and challenges faced by our forests and grasslands and demands from citizens.

This strategic plan also links to and supports the Forest Service Tribal Relations Manual (Forest Service Manual 1560) and Handbook (Forest Service Handbook 1509.13) directives and many legal authorities. Recognizing that Tribes and tribal communities help the Forest Service do a better job of accomplishing our mission, this plan outlines a means for all Forest Service employees to better work and communicate with tribal partners. It illustrates the balance the agency hopes to achieve between the many different—and at times mutually exclusive—requirements for serving a diverse American public and tribal communities. It focuses on developing the knowledge and skills that are vital to building and maintaining relationships with Tribes and other partners important to facilitating the work we do every day.

For further information on specific opportunities, please refer to section 4.3 Conservation and Forestry

5.4.2 Rural Development is Working with American Indians and Alaska Natives

Rural Development (RD) places a high value on it’s relationship with AI/AN, and we are committed to expanding outreach and services throughout Indian Country and Alaska. We are collaborating and partnering with Tribes to realize a brighter future for families, children, and communities. Through loans, grants, and technical assistance, RD makes critical investments in infrastructure, housing, schools, health clinics, and economic and community development, to benefit Native families and communities across rural America.

RD strives to support American AI/ANs in holistic, sustainable, and culturally responsive ways. Every Tribal Nation has unique assets as well as distinct challenges. Maximizing the potential of these assets and addressing local challenges can only happen in an environment where relationships and trust provide a foundation for true partnership and collaboration.

RD understands that the legal, regulatory, and governmental infrastructure, the methods of doing business, and culture are unique to each Tribal Nation. We recognize that Tribes are distinct. RD staff strive to understand those distinctions and tailor our services, loans, and grants to be responsive to each Tribe’s circumstances and vision for development.

We are committed to Tribal-led community and economic development that respects Tribal sovereignty and honors Tribal self-determination to meet the needs of current and future generations. Priorities for our work with Tribes include:

- The well-being of individuals, families, children, and military veterans;
- Access to safe, affordable housing, including homeownership and home repair programs;
- Strong workforce development through sustainable economic development;
- Financing of essential community facilities, including public safety infrastructure, health and educational facilities;
• Access to clean water and sanitation systems; and
• The provision of affordable and reliable utilities, including electric, renewable energy, telecommunications and broadband

Through Rural Development’s programs, American Indians and Alaska Natives are able to access capital, expand markets, start-up and grow businesses, and improve food production and distribution. These tools help Tribes create and sustain thriving communities, strong families, and healthy children who are well-prepared to contribute to their families, their community, and lay the foundation for future generations.

USDA Rural Development has experience in assisting Tribes and Tribal members within unique regulatory, legal, financial, and land tenure circumstances, such as:
• Collateral options for projects on Trust lands and a variety of revenue streams;
• Tribal legal and regulatory structures for business, infrastructure, and housing development, including commercial codes, foreclosure and eviction codes, land leases, and leasehold mortgaging; and
• Working alongside and supporting Tribal Community Development Financial Institutions (CDFI), lending and investment institutions, and other Tribal stakeholders.

Although most of Rural Development’s programs were not specifically designed for Tribes—and regulatory, budget, and staff limitations can be challenging—we strive to forge new strategic partnerships with Tribes to find creative solutions to such challenges, through ongoing collaboration, strong working relationships, thoughtful dialogue, consultation, and planning.

To learn more about USDA Rural Development’s programs and to find local and national office contact information, direct your browser to www.rd.usda.gov. We look forward to hearing from you!

5.4.3 EXTENSION AND TECHNICAL ASSISTANCE
Cooperative Extension Service offices are conveniently located in courthouses, post offices, or other local government buildings to improve the quality of people’s lives by providing research-based knowledge to strengthen the social, economic, and environmental well-being of families, communities, and agriculture enterprises. Extension experts focus on, among other subjects, food safety and quality, the plight of young children, revitalizing rural America, sustainable agriculture, and waste management.
5.4.3.1 Federally Recognized Tribal Extension

Extension Agents provide Extension education programs on the Indian Reservations and Tribal jurisdictions of Federally recognized Tribes. Priorities reflect the following national critical needs areas: 1) Development of sustainable energy; 2) Increased global food security; 3) Adaptation/mitigation of agriculture and natural resources to address global climate change; 4) Reduction of childhood and adolescent obesity; and 5) Improved food safety.

Contact your local 1862 or 1890 Land-Grant University to find out if a FRTEP agent serves your region.

5.4.3.2 1994 Land-Grant Tribal Colleges and Universities (TCUS) Extension

Tribal College Extension supports informal, community-based learning such as farmer education, youth development, and rural entrepreneurship. Each of the 1994 TCUs provide Extension education programs.

5.4.3.3 Intertribal Agricultural Council Technical Assistance Network

Through collaboration between the OTR and the Intertribal Agriculture Council, the Intertribal Technical Assistance Network was established to increase access and use of USDA programs and services by Indian producers and Tribes.

Agency: Animal and Plant Health Inspection Service (APHIS)
Eligibility: Summer youth program 14 – 17 years old. Internships – College Students
Key Dates: Start dates varies.
Contact: APHIS National Tribal Liaison Terry Clark at (301) 440-4388 or Terry.W.Clark@aphis.usda.gov, or Assistant National Tribal Liaison Carl Etsitty at (970) 494-7573 or Carl.Etsitty@usda.gov.
Website: https://www.aphis.usda.gov/aphis/ourfocus/tribalrelations/native-youth

5.4.3.4 Safeguarding Natural Heritage (SNH)

United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS) has collaborated with Tribal colleges and universities (TCUs), and other Native American Serving Institutions (NASIs), to deliver Safeguarding Natural Heritage (SNH), a 2-week summer outreach program that helps students ages 14-17 explore careers in plant and animal science, wildlife management, and agribusiness. Students participate in hands-on labs, workshops, discussion groups, field trips, and character- and team-building activities led by Tribal elders, practitioners, and professionals, university professors, and U.S. Government scientists while living on a college campus. Students chosen to participate in SNH pay only the cost of transportation to and from the college/university campus. All other costs—including tuition, room and board, and laboratory supplies—will be covered by APHIS. Furthermore, APHIS have partnered with several TCUs and other NASIs to offer internship opportunities for college students. Successful applicants receive a paid, 8-week summer position with APHIS around the country. It’s a chance to gain valuable, first-hand experience in APHIS’ day-to-day work, as well as insights into public service and working for a Federal agency.

5.4.4 TRIBAL YOUTH

5.4.4.1 The USDA Tribal Youth Guide
The USDA Tribal Youth Guide provides information on USDA programs and resources available that directly impact Tribal Youth. The USDA Tribal Youth Guide is available as a .pdf online at https://www.usda.gov/our-agency/staff-offices/office-tribal-relations.

Please direct questions about the guide to:

USDA Office of Tribal Relations
(202) 205-2249
tribal.relations@usda.gov
https://www.usda.gov/our-agency/staff-offices/office-tribal-relations-otr

5.4.4.2 Internship and Scholarship Opportunities for 1994 Land-Grant Tribal College and University Students.
Faculty and staff interested in developing opportunities for their students at USDA please contact:

USDA 1994 Tribal Land-Grant Colleges and Universities Program
(202) 720-7265
1994@usda.gov

5.4.5 INVOLVEMENT IN USDA BOARDS AND COMMITTEES
You can be the native voice on USDA Advisory Boards and Committees. Even when Boards and Advisory Committees are not actively seeking new members, you can apply at any time to be eligible for consideration when the next position is available.

5.4.5.1 USDA Advisory Boards and Committees
This comprehensive list of USDA Boards and Advisory Committees, as well as, links to the Federal Advisory Committee’s Database for USDA committees, and the database for Federal Advisory Committees across the Federal Government can be found at https://www.usda.gov/our-agency/staff-offices/office-executive-secretariat-oes/advisory-committees

5.4.5.2 How to Submit a Nomination for Advisory Committee Membership
USDA is seeking nominations for all of its committees. Over 4,000 opportunities to serve on advisory committees are routinely available as the term of each member expires. USDA is interested in a wide range of professionals including scientists, representatives of interest groups, educators, and business leaders. Individuals and organizations who wish to nominate experts for any USDA advisory committee should submit a letter to the Secretary listing these individuals’ names and business address, phone, and e-mail contact information. These individuals may be contacted to determine their interest in serving as a committee member.

Candidates who wish to be considered for any committee should submit an Application for Advisory Committee Membership https://www.usda.gov/our-agency/staff-offices/office-executive-secretariat-oes/advisory-committees (the application can be found online at this website) and resume to the Secretary of Agriculture. Cover letters should be addressed to the Secretary of Agriculture.

All nomination materials should be mailed in a single, complete package to: Secretary, U.S. Department of Agriculture, 1400 Independence Avenue SW, Washington, DC 20250.

For more information about USDA’s Advisory Committees, contact: Cikena Reid, White House Liaison Office Phone: (202) 720-2406, cikena.reid@usda.gov
5.4.5.3 Farm Service Agency County Committees

The Farm Service Agency (FSA) provides a financial safety net for America’s farmers and ranchers, helps sustain economically viable agricultural production, and assists with expanding stewardship of America’s natural resources. Farmers and ranchers who are elected to serve on FSA County Committees apply their judgment and knowledge to help with the decisions necessary to administer FSA programs in their counties, ensuring the needs of local producers are met.

FSA County Committee Election information can be found at http://www.fsa.usda.gov/news-room/county-committee-elections/

Nomination forms can be requested at the local USDA Service Center https://offices.sc.egov.usda.gov/locator/app or found online at http://www.fsa.usda.gov/elections

5.4.5.4 Natural Resources Conservation Service: A Seat at the Table for Conservation Policy

How Can I Participate?

Do you have an interest in soil, water, air, plants, wetlands, wildlife, and agriculture? Do you want to support voluntary natural resource management by landowners and managers on private lands? Are you willing to work with natural resource experts from around the State? Then consider serving on a U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) State Technical Committee to help guide national conservation programs that address local needs.

Individuals and groups can receive more information on serving as a State Technical Committee member by writing to the NRCS State Conservationist for that State and describing their qualifications for membership. NRCS State Conservationists determine who will serve on the Committee. Individuals and groups can participate by providing input to the conservation district through their local conservation needs assessment process. Conservation districts gather this feedback not only to direct their own programs, but also to share with their Local Work Group.

What Are State Technical Committees and Local Work Groups?

The 1985 Farm Bill (Food Security Act) established State Technical Committees to advise NRCS in making technical decisions related to the implementation of the Act’s conservation provisions. The role of the committees was expanded by the 1996 Farm Bill (Federal Agriculture Improvement and Reform Act). These Committees offer an opportunity for interested individuals and groups to advise NRCS on how best to locally implement conservation programs.

“Their [State technical committee] involvement can help NRCS assure that limited financial and technical assistance is targeted to priority natural resource concerns and the conservation needs of people at all levels are considered.” NRCS State Conservationist and State Technical Committee Chair

Local Work Groups make recommendations to the State Technical Committee on local technical and conservation issues. These recommendations are based on resource needs assessments that are developed by conservation districts through community and stakeholder input. Local Work Groups support districts’ locally led efforts by coordinating USDA programs to help provide an integrated solution to addressing natural resource concerns. In keeping with the Federal Advisory Committee Act, Local Work Group membership is limited to Government representatives. Community and stakeholder input, however, is open to all interested citizens.

What Are the Roles of State Technical Committees and Local Work Groups?

State Technical Committees serve as an advisory body to the NRCS State Conservationist. They provide recommendations on technical aspects of Farm Bill conservation programs, including:

- Conservation Reserve Program (CRP)
- Farm and Ranch Lands Protection Program (FRPP)
- Environmental Quality Incentives Program (EQIP)
• Wetlands Reserve Program (WRP)
• Wildlife Habitat Incentives Program (WHIP)
• Conservation Security Program (CSP)
• Grassland Reserve Program (GRP)

They also may provide guidance on other technical matters, such as practices not already described in NRCS field office technical guides, criteria for evaluating and ranking projects, cost share and incentive payment levels, and measures related to achieving a program balance regardless of agricultural sector or farm or ranch size. Committee input also is sought on information and outreach strategies. NRCS State Conservationists determine specific items and/or issues for Committee reviews and recommendations. Local Work Groups ensure that a conservation needs assessment is developed, submit priorities and funding requests to the State Technical Committee, and conduct Civil Rights impact analyses for all funding requests and program implementation.

Can You Be a Member of the State Technical Committee?
State Technical Committee meetings are open to the public, and members of the public are welcome to attend and offer their input. Usual membership, however, includes one representative from the following Federal agencies:

USDA:
• NRCS
• Farm Service Agency
• FSA State Committee
• Cooperative State Research, Education, and Extension Service
• Rural Development
• Forest Service

Department of the Interior:
• Bureau of Indian Affairs
• Bureau of Reclamation
• U.S. Fish & Wildlife Service
• U.S. Geological Survey
• Bureau of Land Management

Department of Defense:
• U.S. Army Corps of Engineers

Committees also include members from State agencies such as a State’s Department of Natural Resources (as identified by the NRCS State Conservationist) and each Federally recognized tribal government that encompasses 100,000 acres or more in a State.

Membership also may include private interests such as individuals with conservation expertise, agricultural producers, non-profit organizations, persons knowledgeable about conservation techniques and programs, and representatives from agribusiness. NRCS also seeks members with natural resource conservation experience specific to historically underserved groups and individuals, e.g., minorities, women, persons with disabilities, and socially and economically disadvantaged groups. NRCS State Conservationists determine the formal composition of the Committee.

What Is Expected of a State Technical Committee Member?
Committee members are expected to attend all meetings, which typically range from quarterly to annually. Many are scheduled based on need as determined by the NRCS State Conservationist. Members also may be asked to participate in subcommittees for a more in-depth study of programs, processes, and resource issues. Committees range in size from 14 to more than 200 individuals. The most successful Committees follow a meeting agenda, listen as well as voice their opinions, and recognize that the Committee serves to provide
advice to the NRCS State Conservationist who makes his or her decisions as the designated Federal authority. Although the Committee has no implementation or enforcement authority, NRCS gives serious consideration to Committee advice. Committee members are volunteers and receive no reimbursement for their participation.

**Where Can I Find Information About My State Technical Committee?**
Many State Web sites provide information about their State Technical Committee. Contact information is available on State Web sites at [http://www.nrcs.usda.gov/about/organization/regions.html](http://www.nrcs.usda.gov/about/organization/regions.html)

**What Are Tribal Conservation Districts?**
The primary objective of the tribal conservation districts is to support tribal efforts to provide for the utilization, protection, conservation and restoration of reservation lands for the benefit of the community in a partnership effort with USDA and NRCS. Tribal conservation districts provide a local voice in leadership efforts to address natural resources needs and concerns by providing assistance to land owners/users and managers in the conservation and wise use of land and natural resources. They also provide leadership for intra-tribal coordination between tribal governments, tribal natural resource managers and coordinate assistance from NRCS and other Federal, State, local, and private sources. Working with the Intertribal Agricultural Council (IAC) and Indian Nations Conservation Alliance (INCA), NRCS has assisted with the establishment of 33 Tribal Conservation Districts.

**5.5 Applying for Federal Grants**

**5.5.1 GRANTS.GOV**
A prospective applicant, can use the “Search Grants” function to navigate through opportunities and settle on the right funding opportunity announcement for you. Once you select on a funding opportunity to apply for, there are two high-level steps, in addition to your own application development processes, to work on before submitting your application in Grants.gov:

1. Register to apply for grants
2. Complete your application

Registering to apply for grants on Grants.gov includes several steps and types of registration, including DUNS, SAM.gov, and Grants.gov accounts. Grants.gov has pages dedicated to walking you through the Organization Registration and Individual Registration processes under the Applicants tab. It’s not a highly complex process, but it can take 1 to 3 weeks to complete, so please register as early as you can. Do not allow yourself to miss the application deadline because you waited until the last week to try to register.

For more information, please visit: [http://www.grants.gov/web/grants/outreach/about-grants-gov.html](http://www.grants.gov/web/grants/outreach/about-grants-gov.html)

To learn more about USDA and the many ways we serve the American people every day, please visit [www.usda.gov](http://www.usda.gov).
In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender
