SUBJECT: Supplemental Nutrition Assistance Program (SNAP) – Fiscal Year  
2021 Allocations of Discretionary Exemptions for Able-Bodied Adults  
Without Dependents

TO: All SNAP State Agencies  
All Regions

Section 6(o) of the Food and Nutrition Act of 2008 (the Act) limits the amount of time able-bodied adults without dependents (ABAWDs) may participate in the Supplemental Nutrition Assistance Program (SNAP) to 3 months in any 36-month period, unless an individual fulfills certain work requirements or is otherwise exempt from the time limit. However, the Act allocates a number of monthly discretionary exemptions to the ABAWD time limit each fiscal year (FY), based on 12 percent of a State's estimated number of covered individuals, as defined in section 6(o)(6)(A)(ii) of the Act.

This memorandum adjusts the total number of exemptions available to each State for FY 2021, as shown in the table on the next page. This includes increases in the number of exemptions available to States in which caseloads increased by more than 10 percent, as described in section 6(o)(6)(F) of the Act.

Please note that the totals do not account for any exemption usage in FY 2021 (those figures must be reported in final by States on the Form FNS-583, due 45-days after the end of the FY.) While States have great flexibility in applying discretionary exemptions, States must track and report the number of discretionary exemptions used each month on a quarterly basis to their respective FNS regional office via the FNS-583 form. In addition, discretionary exemptions must be properly documented in the case file prior to monthly Quality Control sample selections.

### Special Considerations

As a reminder, the Families First Coronavirus Response Act (FFCRA) temporarily and partially suspends the time limit for ABAWDs' participation in SNAP from April 1, 2020, through the end of the month subsequent to the month in which the public health emergency declaration by the Secretary of Health and Human Services based on an outbreak of COVID-19 is lifted. If a State offers an ABAWD a slot in a work or workfare program, including a SNAP Employment and Training (E&T) program under section 6(d)(4), the individual is still subject to the time-limit. Therefore, many States

USDA is an Equal Opportunity Provider, Employer and Lender

did not need to use any discretionary exemptions during the third and fourth quarters of FY 2020. For more information, please see the memo [SNAP – Families First Coronavirus Response Act and Impact on Time Limit for Able-Bodied Adults Without Dependents \(ABAWDs\)](#).

On October 18, 2020, the U.S. District Court for the District of Columbia vacated the final rule, *Supplemental Nutrition Assistance Program: Requirements for Able-Bodied Adults Without Dependents* (84 FR 66782), which would have revised the carryover of discretionary exemptions. The Department is pursuing publication of a final rule that will restore regulatory language at 7 CFR 273.24 to the language that existed prior to the 2019 final rule. Since the 2019 final rule is no longer in effect, States may carry over unused discretionary exemptions from previous fiscal years.

State agencies with questions should contact their respective Regional Office representatives. Regional Offices should contact Arpan Dasgupta or Riley Link with any questions.

<sup>1</sup> New Mexico overused 15 percent exemptions in the first and second quarters of FY 2009. The State has had waivers since that time and therefore has not earned any exemptions since that time. The State cannot use 15 percent exemptions until its negative balance is eliminated.

\* Indicates the State's new exemptions earned for FY 2021 have been adjusted to reflect newly available caseload data.
